Welcome to our latest dental product catalogue

The aim of LavaDent is to offer a high quality, friendly and accessible service to all general dental practitioners and their team in the UK. Our range of products includes products from leading manufacturers and suppliers as well as economy ranges of products at incredibly low prices.

Our range of high quality dental products offer outstanding value and are second to none in terms of quality and value for money. With our **Pay Less Price Commitment** you know you will always get great value for money.

Every single product is tested by our general dental practitioners to ensure that they meet your needs in everyday practice. In fact we are so confident you would like our products that we offer a full money back guarantee.

We understand that our customers are extremely busy and many have extended opening hours to accommodate the needs of their patients, therefore we also stay late so you can place your order up to 7.00pm. You can now call our sales team from 9:00am to 7:00pm Monday to Friday. Of course you can order 24/7 online www.lavadent.com

Order Online and Save £££s

Look out for our **Web Only Prices** and save £££s when you order online at www.lavadent.com with our Web Only Price.

Many of our customers are already enjoying the convenience of online ordering. When you order online at www.lavadent.com you can rest assured that you will receive our very best prices, this includes our Web Only Prices, special offers and sale prices.

Quality at the Best Prices

Pay Less Price Commitment

"Our promise is simple. We will beat any nationally available published price on any like-for-like product offers. We believe we already offer our customers the best price available, now you just need to put us to the test."

Condensation Silicone (C-Silicone)

Speedex Putty Material Coltene Whaledent

WEB ONLY PRICE
£18.95

Speedex Putty is a Polysiloxane (condensation type) impression material with a very high viscosity and fast 'snapset' for sharper definition. Superior dimensional stability allows models to be cast up to 7 days after impression taking. Adjustable setting time by volume of activator.

Working time: 1 minute 30 seconds

Setting time: 3 minutes (in the mouth)

Colour: Light Grey

Packing: Each box contains 1 x 910ml Tub.

Putty Tub 910ml COL12110 **£19.95**

Speedex Wash Light Body Coltene Whaledent

WEB ONLY PRICE
£8.95

Speedex Wash Light Body is a Polysiloxane (condensation type) impression material with a very high viscosity and fast 'snapset' for sharper definition. Superior dimensional stability allows models to be cast up to 7 days after impression taking. Adjustable setting time by volume of activator.

Working time: 1 minute 30 seconds

Setting time: 3 minutes (in the mouth)

Colour: Dark Blue

Packing: Each box contains 1 x 140ml Tube.

Wash Light Body Tube 140ml COL12210 **£9.95**

Speedex Universal Activator Paste Coltene Whaledent

Speedex Universal Activator Paste for use with Speedex's Putty/Wash Light Body/Wash Medium Body.

Colour: Green

Packing: Each pack contains 1 x 60ml Tube.

Universal Activator Paste 60ml COL12305 **£11.95**

Alphasil Perfect Soft Putty Material Müller-omicron

WEB ONLY PRICE
£15.25

Alphasil Perfect Soft Putty is a soft putty material that with its optimized filters simplifies the initial mixing and makes perfect the homogeneity of the mixing results.

Flavour: Light Mint

Colour: White

Working time : 1 min 45 sec

Time within oral cavity : 4 min

Final Hardness: Shore A60

Packing: Each box contains 1 x 900 ml Tub

Additional Cured Silicone

- **Hydrophilic vinyl polysiloxane impression material.**
- **Advanced hydrophilic formula leading to superb flow characteristics.**
- **Excellent precision in detail reproduction.**
- **High dimensional stability.**
- **Excellent elastic recovery.**
- **Low liner shrinkage and high tearing strength.**

Addition Silicone (Cont'd)

Elite HD+ (High Detail) Putty Soft
Zhermack Sps

Elite HD+ Putty Soft is an A-silicone precision impression material. Ideal for fixed prostheses. Suggested technique: two-stage with standard trays. 1:1 mixing ratio. Available in Normal and Fast Settings.

- High deformation strength
- Excellent elastic recovery
- High dimensional stability
- 3-year shelf life
- Safe disinfection with recommended disinfectant solution or spray

Putty Normal Set 500ml	ZHE12413	£32.95
Putty Fast Set 500ml	ZHE12414	£32.95

Working time: 1 minute 30 seconds (Fast Set) & 2 minutes (Normal Set)

Setting time (in mouth): 2 minutes 30 seconds (Fast Set) 3 minutes 30 seconds (Normal Set)

Colour: Yellow (Fast Set) & Orange (Normal Set)

Packing: Each pack contains 250ml Base + 250ml Catalyst and 2 measuring scoops.

Elite HD+ Light Body Fast Setting
Zhermack Sps

Zhermack Elite HD+ Light Fast Setting is a hydrophilic very low viscosity A-Silicone with light body consistency for fixed prostheses. Suggested technique is the two stage.

- Maximum precision in detail reproduction
- High tear strength
- Excellent elastic recovery
- High dimensional stability
- Opaque pigments for improved detail reading
- Possibility of casting the model immediately after disinfection
- 3-year shelf life
- Safe disinfection with recommended disinfectants

Characteristics:

- 1:1 Mixing ratio
- Hydrophilic and Biocompatible
- Ideal working time/setting time ratio (Snap-set effect)
- Long working time
- Shorter permanence in the oral cavity

Colour: Green

Working time: 1 minute 30 seconds

Setting time (in mouth): 2 minutes 30 seconds

Packing: Each box contains 2 x 50ml cartridges (Base & Catalyst) plus 12 Mixing Tips (small/yellow)

Light Body Fast Set 100ml	ZHE12315	£24.95
---------------------------	----------	--------

Elite HD+ Super Light Body Fast Setting
Zhermack Sps

Zhermack Elite HD+ Super Light Fast Setting is a hydrophilic very low viscosity A-Silicone with light body consistency for fixed prostheses. Suggested technique is the two stage.

- Maximum precision in detail reproduction
- High tear strength
- Excellent elastic recovery
- High dimensional stability
- Opaque pigments for improved detail reading
- Possibility of casting the model immediately after disinfection
- 3-year shelf life
- Safe disinfection with recommended disinfectants

Characteristics:

- 1:1 Mixing ratio
- Hydrophilic and Biocompatible
- Ideal working time/setting time ratio (Snap-set effect)
- Long working time
- Shorter permanence in the oral cavity

Colour: Lilac

Working time: 1 minute 30 seconds

Setting time (in mouth): 2 minutes 30 seconds

Packing: Each box contains 2 x 50ml cartridges (Base & Catalyst) plus 12 Mixing Tips (small/yellow)

Super Light Body Fast Set 100ml	ZHE12314	£24.95

Amalgam & Alloy Capsules

YDA Amalgam Capsules

YDA

Amalgam capsules with high compressive strength alloys 45% Ag, 30% Cu, 25% Sn and irregular shapes particles, Zinc and Gamma II free therefore minimizes the risk of fracturing the restoration. The high quality ensures a tough, durable and long lasting restoration and sufficient condensations enables easy packing.

Size: Available in 1/2 spill (200mg), 1 spill (400mg), 2 spill (600mg) and 3 spill (800mg)

Packing: Each box contains 50 Capsules.

1/2 Spill 200mg (50 capsules)	YDA13101	£17.75
1 Spill 400mg (50 capsules)	YDA13102	£22.75
2 Spill 600mg (50 capsules)	YDA13103	£27.75
3 Spill 800mg (50 capsules)	YDA13104	£34.95

GS-80 Admix

SDI

A non gamma II admix alloy, admix of spherical and lathe cut particles. contains 40% Silver, 31.3% Tin, 28.7% Copper and mercury in pre-dosed capsules.

Size: Available in 1 spill (400mg), 2 spill (600mg) and 3 spill (800mg)

Packing: Each box contains 50 Capsules and each tub contains 500 capsules.

Regular Set Capsules x 50		
1 Spill Regular (50 capsules)	SDD13141	£32.45
2 Spill Regular (50 capsules)	SDD13142	£40.95
3 Spill Regular (50 capsules)	SDD13143	£48.95
Regular Set Capsules x 500		
1 Spill Regular (500 capsules)	SDD13145	£249.75
2 Spill Regular (500 capsules)	SDD13146	£349.95
3 Spill Regular (500 capsules)	SDD13147	£409.95

GS-80 Spherical

SDI

A non gamma II spherical alloy with spherical particles. contains 56% Silver, 29% Tin, 15% Copper and mercury in pre-dosed capsules. Available in regular and fast sets.

Size: Available in 1 spill (400mg), 2 spill (600mg) and 3 spill (800mg)

Packing: Each box contains 50 Capsules and each tub contains 500 capsules.

Regular Set Capsules x 50

1 Spill Regular (50 capsules)	SDD13151	£33.95
2 Spill Regular (50 capsules)	SDD13152	£42.95
3 Spill Regular (50 capsules)	SDD13153	£51.45

Regular Set Capsules x 500

1 Spill Regular (500 capsules)	SDD13156	£275.95
2 Spill Regular (500 capsules)	SDD13157	£364.95
3 Spill Regular (500 capsules)	SDD13158	£425.95

Fast Set Capsules x 50

1 Spill Fast (50 capsules)	SDD13159	£34.95
2 Spill Fast (50 capsules)	SDD13160	£43.95
3 Spill Fast (50 capsules)	SDD13161	£52.45

Fast Set Capsules x 500

1 Spill Fast (500 capsules)	SDD13163	£277.95
2 Spill Fast (500 capsules)	SDD13164	£367.95
3 Spill Fast (500 capsules)	SDD13165	£427.95

Amalgam Capsules

CyberTech

Cyberfil 45 High Copper Amalgam capsules (45% Ag, 31.5% Cu, 23% Sn) with spherical/lathe cut mix, outstanding dimensional stability and marginal integrity. High corrosion resistance. Gamma II Free.

Size: Available in 2 spill (600g) and 3 spill (800g)

Packing: Each box contains 50 Capsules.

2 Spill 600g (50 capsules)	CYB13107	£39.95
3 Spill 800g (50 capsules)	CYB13108	£49.95

Amalgam & Alloy Capsules (Cont'd)

Ultracaps Plus SDI

Ultracaps is an admix of spherical and irregular particles producing a non-gamma II amalgam. Ultraps offer a low mercury content and Zinc free composition, early compressive strength is high, carving is smooth, generous working time and an extremely low static creep. Contains 50% Silver, 30% Tin, 20% Copper and mercury in pre-dosed capsules. Available in regular and fast sets.

Size: 1 spill (400mg), 2 spill (600mg) and 3 spill (800mg)

Packing: Each box contains 50 Capsules and each tub contains 500 capsules.

Regular Set Capsules x 50

1 Spill Regular (50 capsules)	SDD13121	£28.95
2 Spill Regular (50 capsules)	SDD13122	£37.95
3 Spill Regular (50 capsules)	SDD13123	£43.95

Regular Set Capsules x 500

1 Spill Regular (500 capsules)	SDD13126	£267.95
2 Spill Regular (500 capsules)	SDD13127	£343.95
3 Spill Regular (500 capsules)	SDD13128	£464.95

Fast Set Capsules x 50

1 Spill Fast (50 capsules)	SDD13129	£28.95
2 Spill Fast (50 capsules)	SDD13130	£37.95
3 Spill Fast (50 capsules)	SDD13131	£43.95

Fast Set Capsules x 500

1 Spill Fast (500 capsules)	SDD13133	£267.95
2 Spill Fast (500 capsules)	SDD13134	£343.95
3 Spill Fast (500 capsules)	SDD13135	£464.95

Amalgam Alloy Powder & Mercury

GS-80 Alloy Powder SDI

An admix of spherical and lathe cut alloy particles. Non gamma II. Contains 40% Silver, 28.7% Copper, 31.3% Tin.

Packing: Each bottle contains 250g of powder

Regular Set (250g)	SDD13110	£159.95
--------------------	----------	---------

Aristaloy 21 Alloy Powder Cookson

Non gamma II dispersed phase 45% Silver, 24% Copper, 31% Tin.

Packing: Each bottle contains 250g of powder

Regular Set (250g)	COK13115	£99.95
--------------------	----------	--------

Mercury (Triple Distilled) M&R Claushuis

Triple distilled Mercury.

Packing: Each pack contains 500g of mercury

Triple distilled mercury 500g	MRC13112	£47.95
-------------------------------	----------	--------

Mercury Spillage & Decontamination Kit Mercury Safety Products

Can be used up to 5 times where mercury containing devices are in use COSHH/HSE approved process with patented absorbent for use on carpets and other fabrics Waste mercury safely stored in kit until disposal Kit contains everything you need to deal quickly and easily with a spillage.

Packing: Each Kit contains storage container, absorbent 200g, alloy wool 200g, gloves x 2, dust mask, brush, scoop, syringe and instruction. Each Refill Kit contains Calcium Hydroxide Fine and Microfine Sulphate.

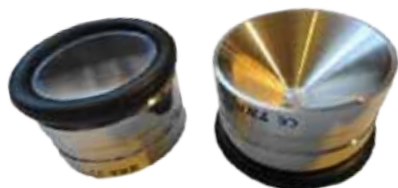

Kit	MSP13113	£41.95
Refill Kit	MSP13114	£22.95

Amalgam Wells

Amalgam Wells

YNR

High quality Amalgam wells, made from German stainless steel with handy non-slip 'O' ring. Bottom weighted to avoid spillage. Will last many years. Can be sterilised using appropriate liquid/spray disinfectant. 3.3cm diameter

Amalgam Well (1pc)	YNR13201	£12.45
--------------------	----------	--------

Clardent Amalgam Wells

Kemdent

Made from rigid PVC with specially designed gateway to admit access of right angled amalgam carrier. After use the well should be wiped clean. Can be sterilised using an appropriate liquid disinfectant. The well should not be autoclaved.

Amalgam Well (1pc)	KEM13202	£10.95
--------------------	----------	--------

Dappen Dishes

NovahDent Disposable Dappen Dishes

Novah Enterprises

Disposable Dappen Dishes are made of special plastic material which is impervious to all dental materials and are designed for quick and easy mixing of materials such as prophylactic paste, fluoride products, composite materials, acrylics, cements and amalgams.

Colour: Blue, White, Yellow & Green

Packing: Each Box contains 100 pcs.

Blue (100pcs)	NOV13214	£2.55
White (100pcs)	NOV13214A	£2.55
Yellow (100pcs)	NOV13214B	£2.55
Green (100pcs)	NOV13214C	£2.55

Pegasus Disposable Dappen Dishes

Astek Innovations

Disposable Dappen Dishes for mixing amalgam, acrylic and other small volumes.

Colour: Blue

Packing: Each Box contains 1000 pieces. Also available in smaller bags containing 50 pieces.

50pcs	PEG13210	£1.40
1000pcs	PEG13211	£19.25

Glass Dappen Dishes

Novah Enterprises

Glass Dappen Dishes for mixing amalgam, acrylic and other small materials.

Colour: Clear

Glass Dappen Dish (1 piece)	NOV13216	£2.25
-----------------------------	----------	-------

Mixing Wells

NovahDent Disposable Mixing Wells

Novah Enterprises

Disposable plastic mixing wells with groove to hold brush or spatula while working. Ideal for adhesive, activators, opaques and all materials dispensed in small quantities. Available in 2-Well or 4-well styles.

- Prevent confusion when using more than one material.
- Cost effective and time saving.
- Helps to avoid cross contamination.
- Easy to pick-up
- Sturdy Light-weight & economical.

Colour: White

Packing: Each pack contains 400 pieces.

2-Well (400pcs)	NOV13201	£9.00
4-Well (400pcs)	NOV13202	£12.00

Mixing Pads

NovahDent Mixing Pads Novah Enterprises

Excellent quality mixing pads. Available in 3 different sizes. Non-slip and Polyethylene coated.

Size: 51 x 51 mm, 76 x 76 mm and 76 x 127 mm

Colour: White

Packing: Each box of 51 x 51 mm contains 500 sheets
Each box of 76 x 76 mm contains 500 sheets
Each box of 76 x 127 mm contains 250 sheets

51 x 51 mm (500 Sheets)	NOV13503	£5.20
76 x 76 mm (500 Sheets)	NOV13504	£5.50
76 x 127 mm (250 Sheets)	NOV13505	£6.00

Amalgam Carrier Guns

NovahDent Amalgam Carrier Gun Novah Enterprises

Easy to use Amalgam Carrier Gun with smooth action. Easy to clean, durable and autoclavable.

Colour: Dark Grey

Packing: Each Box contains 1 piece.

Straight	NOV13230	£5.95
----------	----------	-------

Pegasus Amalgam Carrier Gun Astek Innovations

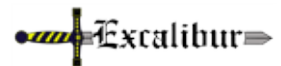

Easy to use Amalgam Carrier Gun with smooth action and three nozzle shapes to cover all applications. Easy to clean, durable and autoclavable.

Colour: Dark Grey

Packing: Each Box contains 1 piece.

Straight	PEG13220	£8.45
45 degrees	PEG13221	£8.45
90 degrees	PEG13222	£8.45

Excalibur Amalgam Carrier Guns Novah Enterprises

Straight (NOV286007)

45 Degree (NOV286008)

90 Degree (NOV286009)

Amalgam Carriers, made from quality German Stainless Steel. Available in straight, 45 degree and 90 degree profiles.

Size: 2.0 mm diameter

Packing: Each pack contains 1 piece.

Straight	NOV286007	£10.95
45 Degree	NOV286008	£10.95
90 Degree	NOV286009	£10.95

Composites

Hybrid; Venus PLT (Capsules)

Heraeus

Venus PLT is a universal light-cured micro hybrid composite based on fine particles for easy, fast and reliable creation of highly aesthetic restorations in anterior and posterior areas. Restorations with Venus are perfectly adapted to the surrounding hard tooth structure due to their "Colour Adaptive Matrix". It is also convincing due to its optimal physical properties, nice handling and very high abrasion resistance. Available in Syringe and capsule forms.

Indications:-

- Direct restorations of all classes
- Direct composite veneers
- Indirect restorations (inlays, veneers)
- Primary teeth restorations
- Aesthetic corrections, e.g. diastema closure
- Temporary splinting of teeth loosened by trauma or periodontal disease
- Core build-up
- Repair of ceramic and composite restorations.

Advantages:-

- Life like anterior restorations.
- Increased viscosity.
- Non-slumping. Non-sticky. Highly radiopaque.

Colour: Shades A1, A2, A3, A3.5, A4, B1, B2, B3, C2, C3, C4, D2 and D3

Packing: Each pack contains 20 x 0.25g Capsules except for shades A4, C3, C4, D2 & D3 which contains 10 x 0.25g.

Capsule Refill A1 (20 x 0.25g)	VEN13381	£52.95
Capsule Refill A2 (20 x 0.25g)	VEN13382	£52.95
Capsule Refill A3 (20 x 0.25g)	VEN13383	£52.95
Capsule Refill A3.5 (20 x 0.25g)	VEN13384	£52.95
Capsule Refill A4 (10 x 0.25g)	VEN13385	£26.45
Capsule Refill B1 (20 x 0.25g)	VEN13386	£52.95
Capsule Refill B2 (20 x 0.25g)	VEN13387	£52.95
Capsule Refill C2 (20 x 0.25g)	VEN13388	£52.95
Capsule Refill C3 (10 x 0.25g)	VEN13389	£26.45
Capsule Refill C4 (10 x 0.25g)	VEN13390	£26.45

Hybride; Venus Pearl Hybrid PLT Bundle Kit

Heraeus

Venus Venus Pearl is a creamy, but non-sticky nano-hybrid universal composite that delivers easy and convenient handling behaviour with excellent colour adaptation, sculptability, polishability and high esthetic results making it well suited for anterior restorations.

- Direct restorations of all classes, composite veneers
- Indirect restorations (inlays, veneers)
- Primary teeth restorations
- Aesthetic corrections, e.g. diastema closure
- Temporary splinting of teeth loosened by trauma or periodontal disease
- Core build-up
- Repair of ceramic and composite restorations.
- Creamy and non-sticky consistency.
- Superior physical properties.
- Very low shrinkage stress and high flexural strength.
- Beautiful, aesthetic results with excellent colour adaptation.

Colour: Shades A1, A2, HKA2.5, A3, A3.5, A4, OLC, OMC, ODC and CL.

Packing: Each kit contains 1 x 2 ml bottle iBOND TE, Layering Guide, Pictorial Card and 10 x 10 x 0.2g PLTs in assorted shades.

Kit (10 x 10 x 0.2g + 1 x 2ml)	VEN13380	£195.95

Composites (Cont'd)

Hybrid; Denfil (Capsules)

Vericom

Denfil is a universal light-cured micro hybrid composite resin for use in both Posterior and Anterior restorations. It is designed for minimizing polymerization shrinkage by inorganic fillers high loading, therefore it has excellent marginal sealing and surface texture. By adopting optimal polymerization initiator system, Delfil has high strength and abrasion resistance, it also contains radiopaque filler therefore using X-ray is convenient. It has also an optimal viscosity for restoration therefore it has excellent workability.

Colour: Shades A1, A2, A3, A3.5, A4, B1, B2, B3, C2, C3, D3

Packing: Each box contains 20 x 0.25g capsules.

A1 Capsules (20 x 0.25g)	VER13321	£19.50

Composites (Cont'd)

Flowable; Gradia Direct FLO (Syringes)
GC Dental

GC Gradia Direct Flo is a flowable, light-cured, radiopaque, micro-filled hybrid composite resin which simplifies sandwich restorations due to proper flow characteristics and direct application from syringe. GC Gradia Direct Flo has been specially designed for use in conjunction with GC Gradia Direct and the new shades are a perfect match to the colour concept of this well-liked, easy to use and highly aesthetic composite.

- No run, no stick formulation therefore adapts nicely to cavity walls
- Radiopacity for facilitates diagnosis
- Fluoride release
- Superior syringe design for easy manipulation

Colour: Shades A1, A2, A3 and A3.5

Packing: Each syringe pack contains 2 x 1.5g syringes.

Syringe Refill A1 (2 x 1.5g)	GCD13351	£34.45
Syringe Refill A2 (2 x 1.5g)	GCD13352	£34.45
Syringe Refill A3 (2 x 1.5g)	GCD13353	£34.45
Syringe Refill A3.5 (2 x 1.5g)	GCD13354	£34.45

Flowable; Gradia Direct LOFLO (Syringes)
GC Dental

GC Gradia Direct Loflo is a low shrinking, high wear-resistant composite with excellent flow characteristics for final placement. Contains high density radiopaque pre-polymerised filter to increase durability, polishability and radiopacity.

- Radiopacity for facilitates diagnosis
- Contains fluoro-alumino-silicate (Fluoride releasing)

Colour: Shades A1, A2, A3 and A3.5

Packing: Each syringe pack contains 2 x 1.3g syringes.

Syringe Refill A1 (2 x 1.3g)	GCD13356	£34.45
Syringe Refill A2 (2 x 1.3g)	GCD13357	£34.45
Syringe Refill A3 (2 x 1.3g)	GCD13358	£34.45
Syringe Refill A3.5 (2 x 1.3g)	GCD13359	£34.45

Flowable; Denfil Flow (Syringes)
Vericom

Denfil Flow is a light-cured radiopaque flowable composite resin, with low shrinkage and good mechanical properties. It is designed to provide optimum flowability and handling. It can restore narrow and deep cavities as well as cervical area. It contains micro-hybrid fillers and provides excellent colour adaptability, natural like aesthetics and high-gloss polishability. Available in Starter Kit and Refills packs

Colour: Starter Kit Shades A2, A3, A3.5 & B2
Refill Shades A1, A2, A3, A3.5, B2, B3, C2

Packing: Each Syringe Starter Kit contains 4 x 2g syringes (A2, A3, A3.5, B2) and 20 tips (Black). Each Syringe refill pack contains 1 x 2g syringe.

Syringe Starter Kit (4 x 2g)	VER13340	£19.95
Syringe Refill A1 (1 x 2g)	VER13341	£6.45
Syringe Refill A2 (1 x 2g)	VER13342	£6.45
Syringe Refill A3 (1 x 2g)	VER13343	£6.45
Syringe Refill A3.5 (1 x 2g)	VER13344	£6.45
Syringe Refill B2 (1 x 2g)	VER13347	£6.45
Syringe Refill B3 (1 x 2g)	VER13348	£6.45
Syringe Refill C2 (1 x 2g)	VER13349	£6.45

Our range of high quality dental products offer outstanding value and second to none in terms of quality and value for money.

LavaDent

Glass Ionomers

Fuji II LC
GC Dental

Fuji II LC is a light curing glass ionomer restorative cement. Designed primarily as a restorative material for use in Class II, V and deciduous teeth, it is a multi purpose material with secondary indications such as liner, base and core build up.

Feature: Smaller particles gives excellent aesthetic and polishability, higher filler loading means significantly improved abrasion resistance. Radiopacity facilitating post operative diagnosis.

Colour: Shades A2, A3, B2 and C2

Packing: Each box of powder refills contains 15g and each box of liquid refills contains 6.8ml. Powder and Liquid Refills are Sold Separately.

Powder Refill A2 (15g)	GCD13842	£39.95
Powder Refill A3 (15g)	GCD13843	£39.95
Powder Refill B2 (15g)	GCD13844	£39.95
Powder Refill C2 (15g)	GCD13845	£39.95
Liquid Refill (6.8ml)	GCD13846	£31.95

Ketac Fil Plus Hand Mix
3M

Handmix radiopaque conventional glass ionomer filling material offering high fluoride release and helps to achieve virtually invisible anterior restorations. Used for Class III and V restorations, small Class I fillings, wedge shaped defects and core build-ups. Available in starter pack, powder refills and liquid refills.

- Expansion coefficient similar to tooth structure
- Radiopaque
- High Fluoride release

Colour: Shades A2, A3, A3.5

Packing: Each Starter Pack contains 10g powder, 10ml liquid and accessories. Each box of powder refill contains 10g powder and each box of liquid refill contains 10ml. Powder and Liquid Refills are Sold Separately.

Starter Pack (10g + 10ml)	3MM13860	£34.95
Powder Refill A2 (10g)	3MM13861	£29.95
Powder Refill A3 (10g)	3MM13862	£29.95
Powder Refill A3.5 (10g)	3MM13863	£29.95
Liquid Refill (10ml)	3MM13864	£11.95

Fuji IX GP
GC Dental

Fuji IX GP is a packable glass ionomer restorative cement in powder/liquid handmix version. The packable non-sticky consistency makes it ideal for Class I, II and V restorations. as a base or as core build-up material.

Feature: Smaller particles gives excellent aesthetic and polishability, higher filler loading means significantly improved abrasion resistance. Radiopacity facilitating post operative diagnosis.

Colour: Shades A2, A3, B3

Packing: Each box of powder refills contains 15g and each box of liquid refills contains 6.4ml. Powder and Liquid Refills are Sold Separately.

Powder Refill A2 (15g)	GCD13851	£29.95
Powder Refill A3 (15g)	GCD13853	£29.95
Powder Refill B3 (15g)	GCD13854	£29.95
Liquid Refill (6.4ml)	GCD13858	£22.95

GI Select Resin Modified Glass Ionomer Luting Cement

Novah Enterprises

GI Select is a dual curing resin modified glass ionomer, ideal for luting crowns, bridges, inlays and onlays.

- Colour change assists use – makes trimming easy
- Aesthetic universal shade
- Strong adhesion to teeth and metal
- Needs no primer and mixes easily
- Excellent handling

Colour: Universal tooth shade

Packing: Each box contains 10g Powder + 5ml Liquid + measuring spoon

Powder 10g + Liquid 5ml	SEL13859	£21.95
-------------------------	----------	--------

Glass Ionomers (Cont'd)

Diamond 90 Cement**Kemdent**

Diamond GPC (Glass Polyphosphonate Cement) is a new generation of restorative material for Class I and Class II semi-permanent restorations, restorations in deciduous teeth, core build-up and pulp capping. Setting times 90 seconds.

- Saliva resistant snap-set
- Up to 50% higher compressive strength than conventional glass ionomer cements
- Minimum preparation - No varnish required
- Rapid waterproof snap-set leaving no acidic after-taste for the patient.
- Adheres to Dentine and Enamel
- Fluoride release
- Radiopaque

Colour: Shades A2, A3, A3.5, A4, B3 & C4**Packing:** Each box contains 10g Powder + 7ml Liquid.

A2; Powder 10g + Liquid 7ml	KEM13871	£52.75
A3; Powder 10g + Liquid 7ml	KEM13872	£52.75
A3.5; Powder 10g + Liquid 7ml	KEM13873	£52.75
A4; Powder 10g + Liquid 7ml	KEM13874	£52.75
B3; Powder 10g + Liquid 7ml	KEM13875	£52.75
C4; Powder 10g + Liquid 7ml	KEM13876	£52.75

Diamond Core Cement**Kemdent**

Diamond Core utilises Kemdents unique polyphosphonate cement (GPC) technology to provide a superior high strength product that offers the dentist a number of advantages over traditional core build-up materials. It comes in distinctive light blue shade. Setting times 2 minutes 15 seconds.

- Resistant to saliva
- Adheres to dentine and enamel
- Rapid snap-set
- Fluoride release
- Radiopaque

Colour: Blue Shade**Packing:** Each box contains 10g Powder + 7ml Liquid.

Powder 10g + Liquid 7ml	KEM13870	£47.05
-------------------------	----------	--------

Diamond Snappy (For Children)**Kemdent**

Diamond Snappy is the ideal tooth restorative material for children. It has no unpleasant after taste, needs no primer or bonding agent, doesn't shrink, adheres to dentine and enamel, releases fluoride and it is resistant to saliva as soon as the cavity is filled. In tests, Snappy has proved itself capable of reducing treatment time by anything up to 50% compared with conventional glass ionomers or composites. Setting time 2 minutes 15 second with working time of only 110 seconds.

- Extremely durable, hard wearing, strong and versatile
- A real alternative to posterior composites and amalgam
- Resistant to saliva
- Adheres to dentine and enamel
- Rapid snap-set
- Fluoride release
- Radiopaque

Colour: Natural Shade**Packing:** Each box contains 10g Powder + 7ml Liquid.

Natural; Powder 10g + Liquid 7ml	KEM13879	£34.10
----------------------------------	----------	--------

Diamond Micro Luting Cement**Kemdent**

Diamond Micro Luting Cement is a resin-reinforced self curing glass ionomer for permanent cementation of porcelain-fused-to-metal crowns, bridges on hard dental tissue, inlays, posts, cores rebuilt with amalgam, composite or glass ionomer cements, plus metal inlays, onlays, crowns and bridges, posts, crowns manufactured from alumina only or zirconia only cores and orthodontic appliances.

- Easy handling, low solubility in the mouth.
- High adhesion, low liner expansion, super marginal integrity
- Easy to remove excess material (no need for rotating instruments), thixotropic, no unwanted run-off
- Self-curing, high Fluoride release, good biocompatibility
- Radiopaque

Colour: Natural Shade**Packing:** Each box contains 10g Powder + 7ml Liquid.

Natural; Powder 10g + Liquid 7ml	KEM13878	£47.50
----------------------------------	----------	--------

Glass Ionomers (Cont'd)

Diamond Rapid Set Capsules
Kemdent

Diamond Rapid Set GIC (Glass Ionomer Cement) capsules are for class I and Class II restorations (intermediate restorations in adult teeth, core build-up and restorations in deciduous teeth) including build up fillings and linings plus core build up and retrograde root fillings. Working time of 135 seconds from activation and their waterproof snap set makes them ideal for the busy Dental practice. Setting time 2 minutes 15 seconds.

- Extremely durable, hard wearing, strong and versatile
- A real alternative to posterior composites and amalgam
- Resistant to saliva and has a rapid snap set
- Adheres to Dentine and Enamel
- Fluoride release
- Radiopaque

Colour: Shades A1 & A3

Packing: Each box contains 20 capsules.

A1; Capsules (20 capsules)	KEM13881	£34.10
A3; Capsules (20 capsules)	KEM13882	£34.10
Capsule Activator (1pc)	KEM13883	£10.91
Capsule Gun Applicator (1pc)	KEM13884	£38.75

Bonding Agents & Adhesives

IBond Self Etch Single Compound Bonding Agent

Heraeus Kulzer

All in one bonding agent that etches, primes and desensitises with just one application. Used for bonding of direct composite restorations and indirect restorations in combination with light curing luting cements, sealing of hypersensitive areas of teeth. Available in Bottle Assortment or Bottle Value Packs.

Packing: Each box of Bottle Assortment contains 4ml Bottle + 50 Application Tips + Mixing Well & Pictorial Card
Each box of Bottle Value Pack contains 3 x 4ml

Bottle Assortment (1 x 4ml)	HER14560	£62.95
Bottle Value Pack (3 x 4ml)	HER14561	£149.95

IBond Total Etch Single Compound Bonding Agent (Bottle Value Pack)

Heraeus Kulzer

Two step etch and rinse bonding system which primes, bonds and desensitises. Used for composites, compomers, sealing under amalgams, adhesive for direct restorations and treatment of hypersensitive teeth

- Light curing one component adhesive .
- Offers a range of indications with a simple, single layer application for high bond strengths and an excellent marginal seal.
- One coat is all that is required, thus saving time and material costs.
- Filled with nano-particles for extra strength and controlled handling.

Packing: Each box contains 3 x 4ml Bottles

Bottle Value Pack (3 x 4ml)	HER14563	£99.95
-----------------------------	----------	--------

U-Bond One Compound Self-Etching Light-cured Adhesive

Vericom

U-Bond is one compound self-etching Light-cured adhesive designed to bond composite to dentin and enamel. It is the 7th generation of the one-step bonding system.

- Only one coat
- Easy and stable
- No shaking and no mixing required
- Ultimate technology, uniform property & ultra strength

Packing: Each Starter Kit box contains 1 x 5 ml bottle brush holder, brushes and mixing well.
Each Refill pack contains 1 x 5 ml bottle.

Refill (1 x 5ml)	VER14401	£25.95
------------------	----------	--------

EsBond Self Etch Light-cured Bonding Agent

Spident

EsBond is 5th generation bonding agent that provides high bonding strengths in a convenient single bottle application. It is a single compound bonding agent designed to bond all classes of direct composite restorations to dentin, enamel as well as composite, treated porcelain and set amalgam.

- Direct light-curing restorations
- High bonding strength
- Wet bonding system
- Noval adhesive monomer
- Hygienic single-dose unit
- Long lasting restorations

Packing: Each box contains 1 x 5ml bottle of bonding agent.

Refill (1 x 5ml)	SPD14551	£19.95
------------------	----------	--------

Light-Cured Sealants

Eco-S; Light-Cured Pit & Fissure Sealant
Vericom

Eco-S is a Light-cured dental material designed for sealing the enamel pit and fissure of teeth for the preservation of caries. By adding nano-fillers to Eco-S it has good properties like shear bond strength, micro-leakage and wear resistance. It has a low viscosity to enable the sealant to penetrate the depths of pits, therefore providing good efficacy as well as workability.

- Long durability, better aspect of sealant
- High permeation, low viscosity
- Versatility, convenience, hygienic application in use
- Whiteness to be distinguishable from normal tooth structure during application

Packing: Each Starter Kit box contains 2 x 1.2ml sealant syringes, 10 disposable tips (Black), Denfil Etchant (37% Semi-gel type phosphoric acid) 2 x 1.2ml syringes & 10 disposable tips (Blue)
Each Refill pack contains 1 x 1.2ml syringe of Sealant and 5 disposable tips (Black)

Starter Kit (2 x 1.2ml)	VER13370	£15.95
Refill (1 x 1.2ml)	VER13371	£6.95

Matrix Bands & Matrix Systems (Cont'd)

Pro-Matrix Pre-assembled Band & Retainer Astek Innovations

Pro-matrix is a single-use pre-assembled matrix band and retainer that simplifies and makes restorations as fast and easy as possible. Suitable for all types of filling materials and for all sizes of filling. It has a sliding band deflector and smooth tightening mechanism to ensure correct fit. The band has a 0.038mm thickness, which is ideal for both amalgam and composite fillings. Narrow neck improves visibility and access, smooth edges provide increased patient comfort. Can be contoured. Available with 'Wide' and 'Narrow' bands.

- Cost effective and saves valuable preparation time
- Suitable for both large and small restorations
- Smooth tightening mechanism to get the required fit
- Easier placement with improved visibility and greater field of access
- Ideal for amalgam and composite fillings
- No ancillary tools required
- Supplied in a convenient dispenser box
- Single use to protect against cross-contamination

Size: Narrow (4.5mm wide) & Wide (6mm wide)

Packing: Each box contains 50 pieces.

Unimatrix Matrix System

TDV Dental

Unimatrix matrix system (Kit) is designed for Class II restorations. The preformed sectional matrices are used for their convexity and thinness which allow good restorative build up and tight contact points. The system is quick, easy and comfortable for the patient, this is due to the Unimatrix clamps/rings replacing the conventional matrix holder system.

- Contact points follow tooth natural anatomy reconstruction
- Quick and easy
- Cost effective & time saving
- Comfort for the patient

Packing:-

- Each Kit contains 2 clamps + 8 silicone tubes + 100 assorted sectional matrices in small, medium & large sizes.
- Each Sectional Matrices pack contains 100 pieces.
- Each Clamp refills contains 2 clamps + 8 silicone tubes.
- Each Silicone tube pack contains 20 pieces.

Pegasus Siqveland Matrix Retainer
Astek Innovations

Siqveland Matrix retainer, made from Stainless Steel. Available in both narrow or wide types.

Size: 7.25cm long (closed position)

Narrow 7.25cm (1pc)	PEG285910	£4.75
Wide 7.25cm (1pc)	PEG285911	£4.75

Accessories

Microcut Hack Saw
TDV Dental

Microcut is a saw bow made of stainless steel to which saws or interchangeable sandpaper strips can be attached. It is the only device really assuring safety to the professional and the patient for the removal of resin, adhesive, cement and amalgam excesses from proximals, particularly when access to the interproximal is not possible due to the excessive amounts of filling material. Due to its very thin blade (0.05mm) any damage to the contact points can be eliminated. Refills of saw blades and sandpaper strips are available and sold separately. All components are Autoclavable by any means at 126° C, 147kPa, 16min.

- It is the safest way to remove excess from the interproximal area
- Eliminates damage to contact points
- Safer and more comfortable for the patient
- Easy to use
- Saves time
- Cost effective
- Autoclavable

Packing:-

Each Microcut Hack Saw pack contains 1 microcut frame/ bow + 1 saw blade + 1 diamond strip.
Each sanding diamond strip refill pack contains 5 pieces
Each saw blade refill pack contains 5 pieces

Microcut Hack Saw (1pc)	TDV13520	£22.95
Saw Blade Refill (5pcs)	TDV13521	£6.95
Sanding Strip Refill (5pcs)	TDV13522	£7.50

Luting and Lining Cements

Carboxylate Cement

Heraeus Kulzer

Carboxylate cement for use as luting cement, temporary filling or lining material. Carboxylate cements show an excellent clinical performance. They are ideally suited for cementing permanent restorations and offer additional protection against thermal and chemical influences when used as lining cement.

- Wide range of application
- Reliable protection against thermal and chemical influences
- Cementation of crowns, bridges and inlays as well as cavity liner for permanent restorations

Colour: Universal White/Yellow

Packing: Each bottle of powder contains 90g and each bottle of liquid contains 30ml.

Powder (1 x 90g)	HER14100	£29.25
Liquid (1 x 30ml)	HER14103	£18.95

Zinc Phosphate Cement

Heraeus Kulzer

Phosphate cement is very suited for cementation of definitive restorations and also offers additional protection against thermal and chemical effects as cavity liner.

- Wide range of application
- Reliable protection against thermal and chemical influences
- Cementation of crowns, bridges and inlays as well as cavity liner for permanent restorations

Colour: Universal White/Yellow

Packing: Each bottle of powder contains 90g and each bottle of liquid contains 30ml.

Powder (1 x 90g)	HER14110	£17.25
Liquid (1 x 30ml)	HER14113	£9.80

Zinc Cement Improved Powder

S.S. White

Zinc oxyphosphate cement for cementation and use as a base liner. Available in 11 Pure White & 12 Tooth Yellow colours.

Packing: Each bottle of powder contains 90g and each bottle of liquid contains 45ml.

Powder 11 White (90g)	SSW14115	£20.45
Powder 12 Yellow (90g)	SSW14116	£20.45
Liquid (45ml)	SSW14117	£16.25

Zonalin Zinc Oxide Cement (Quick Set)

Kemdent

Zonalin is a modified zinc oxide eugenol cement for use as routine cavity lining under amalgam and silicate restorations, temporary filling, pulp capping to protect pulp from thermal change and acid irritation of cements, temporary seal for medicament dressing.

Packing: Each Complete set contains 28g powder + 10ml liquid. Each Powder Refill contains 28g. Each Liquid Refill Contains 10ml.

Complete Set (28g/10ml)	KEM14118	£9.25
Powder Refill (28g)	KEM14119	£5.75
Liquid Refill (10ml)	KEM14120	£4.05

Alganol Zoe Zinc Oxide Cement (Quick Set)

Kemdent

Alganol Zoe is a modified zinc oxide eugenol cement for use as routine cavity lining under amalgam and silicate restorations, temporary filling, pulp capping to protect pulp from thermal change and acid irritation of cements, temporary seal for medicament dressing.

Packing: Each pack of Powder contains 90g. Each pack of Liquid contains 30ml.

Powder (90g)	KEM14121	£13.45
Liquid (30ml)	KEM14122	£12.25

Calcium Hydroxide Liners

Life Calcium Hydroxide Liner (Regular Set)

Kerr

**WEB ONLY PRICE
£13.95**

Life Regular Set is a self cure radiopaque hard setting calcium hydroxide cavity liner.

Packing: Each box contains 12g Base + 12g Catalyst + mixing pad.

12g Base + 12g Catalyst KER14700 **£14.25**

Fluoroseal LC Cavity Liner

Sci-Pharm

**WEB ONLY PRICE
£6.75**

Light-cured cavity liner for lining cavity walls and floor prior to application of filling materials.

- Fast and easy to apply
- Economical
- Compatible with all restoratives & cements
- Mechanically strong & virtually insoluble in oral fluids
- Contains fluoride
- X-ray opaque

Packing: Each box contains 1.5g syringe + mixing tips

Syringe 1.5g + tips SCP14702 **£7.95**

Glass Ionomer Luting Cement & Liner

Ketac Cem (Introduction Pack)

3M ESPE

Ketac Cem is a radiopaque glass ionomer luting cement and cavity liner for inlays, onlays, crowns, bridges and cavity linings.

Packing: Each Triple Pack contains 1 x 33g Powder + 1 x 12ml Liquid + 1 x Mixing Pad

Powder 33g+ Liquid 12ml 3MM14010 **£49.95**

Ketac Cem (Triple Pack)

3M ESPE

Ketac Cem is a radiopaque glass ionomer luting cement and cavity liner for inlays, onlays, crowns, bridges and cavity linings.

Packing: Each Triple Pack contains 3 x 33g Powder + 3 x 12ml Liquid + 3 x Mixing Pad

Powder 3 x 33g + Liquid 3 x 12ml 3MM14011 **£119.95**

Ketac Cem (Liquid Refill)

3M ESPE

Ketac Cem is a radiopaque glass ionomer luting cement and cavity liner for inlays, onlays, crowns, bridges and cavity linings.

Packing: Each box contains 1 x 12ml bottle of liquid.

Liquid Refill (1 x 12ml) 3MM14013 **£12.95**

Ketac Cem (Powder Refill)

3M ESPE

Ketac Cem is a radiopaque glass ionomer luting cement and cavity liner for inlays, onlays, crowns, bridges and cavity linings.

Packing: Each Triple Pack contains 1 x 33g Powder

Powder Refill (1 x 33g) 3MM14012 **£39.95**

GI Luting Cement & Liner (Cont'd)

Select Modified Glass Ionomer Luting Cement

Novah Enterprises

GI Select is a dual curing resin modified glass ionomer, ideal for luting crowns, bridges, inlays and onlays.

- Colour change assists use – makes trimming easy
- Aesthetic universal shade
- Strong adhesion to teeth and metal
- Needs no primer and mixes easily
- Excellent handling

Colour: Universal tooth shade.

Packing: Each box contains 10g Powder + 5ml Liquid + Measuring Spoon.

Powder (10g) + Liquid (12ml) SEL13859 £21.95

Fuji Lining LC Paste (Cartridge Refill)

GC Dental

Fuji Lining LC Paste is the first light-cured resin modified glass ionomer lining cement available in a paste-paste presentation.

- Simple, accurate dispensing
- Very easy bubble free mixing
- Thin film thickness
- Easy adaptation to cavity walls without slumping.
- Excellent bond to tooth structure without conditioning
- Tight bond to composite resin.

Packing: Each pack contains cartridge 7g (4,7ml) & mixing pad.

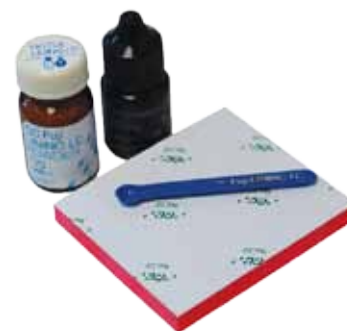

Cartridge Refill (7g + mixing pad) GCD14032 £49.95

Fuji Lining LC 1-1 Pack Powder & Liquid

GC Dental

Radiopaque light cured glass ionomer for fast linings under amalgam, composite and porcelain.

- Fast setting time of 30 seconds
- Low water solubility, insensitive to humidity
- Excellent bonding to tooth structure

Packing: Each pack contains 10g powder and 8ml liquid.

1-1 Pack (10g + 8ml) GCD14031 £84.95

Ketac-Bond Aplicap

3M ESPE

A self-cured radiopaque glass ionomer cavity liner in the Aplicap capsule that offers high, long-term fluoride release and molecular adhesion to enamel and dentin for better marginal integrity. For use under composites and amalgam restorations and lining cavities. Aplicaps require the Aplicap activator.

- Adheres molecularly to enamel and dentine for marginal integrity
- Offers high, long-term fluoride release
- High radiopacity
- Aplicap capsule provides consistent quality and simplifies practical handling considerably
- Aplicap capsule provides accurate, consistent mix with easy placement

Packing: Each pack of Aplicap contains 50 yellow caps. Each dentine conditioner liquid contains 10ml.

Aplicap (Yellow Caps 50)	3MM14020	£74.95
Dentine Conditioner (10ml)	3MM14021	£8.25
Activator (1pc)	3MM14022	£37.95
Applicator (1pc)	3MM14023	£51.95

GI Luting Cement & Liner (Cont'd)

Ketac Bond (Handmix)

3M ESPE

A self cured radiopaque glass ionomer cavity liner, for use under composites and amalgam restorations as base material for sandwich technique, cavity lining, extended fissure sealing.

- Offers fluoride release
- High radiopacity

Packing: Each Double Pack contains 2 x 10g Powder + 12ml Liquid. Each Powder refill pack contains 10g. Each Liquid refill contains 12ml.

Double Pack (2 x 10g + 12ml)	3MM14017	£48.95
Powder Refill (1 x 10g)	3MM14018	£24.95
Liquid Refill (1 x 12ml)	3MM14019	£12.95

Ketac Cem Maxicap

3M ESPE

A Glass ionomer luting cement for cementing inlays, onlays, crowns, bridges etc. Offers extended working time, predictable setting characteristics and easy application. Maxicaps are larger than Aplicaps and require the use of the Maxicap Activator and Applicator.

- Offers fluoride release
- High radiopacity
- Maxicap capsule provides consistent quality & simplifies practical handling considerably
- Maxicap capsule provides accurate, consistent mix with easy placement

Packing: Each pack of Maxicap contains 50 capsules.

Maxicap (Capsules x 50)	3MM14027	£133.95
Maxicap Activator	3MM14028	£39.95
Maxicap Applicator	3MM14029	£52.95

Fuji Plus (Handmix)

GC Dental

Resin modified glass ionomer luting cement Fuji Plus is multipurpose, able to cement metal-based restorations, ceramic inlays, reinforced ceramic crowns and bridges and all kinds of acrylic/resin crowns, inlays, onlays and bridges.

- Easy mixing and handling.
- Intrinsic adhesion to tooth structure to eliminate complex and moisture sensitive bonding procedures.
- Minimal film thickness.
- No post-operative sensitivity.
- Very low solubility to maintain marginal seal.

Packing: Each pack of handmix kit contains powder 15g, liquid 7ml and conditioner 6.5ml. Each pack handmix powder refill contains 15g. Each pack of liquid refill contains 7ml and each pack of conditioner contains 6.5ml

Handmix Kit (15g+7ml+6.5ml)	GCD14060	£74.95
Yellow; Powder Refill (15g)	GCD14061	£39.95
A3; Powder Refill (15g)	GCD14062	£39.95
Translucent; Powder Refill (15g)	GCD14063	£39.95
Liquid Refill (7ml)	GCD14064	£24.95
Conditioner Refill (6.5ml)	GCD14065	£20.95

G-Cem

GC Dental

G-Cem is a dual-cure self-adhesive universal resin cement delivered in a capsule, designed for the adhesive luting of all ceramic, metal or composite indirect restorations.

- Excellent bonding property to restorative materials, including Zirconium
- High fluoride release
- Improves handling/self-adhesion by using superior mechanical properties, adhesion and aesthetic virtues of a resin cement.

Packing: Each pack of contains 50 capsules.

A2 (Capsules x 50)	GCD14050	£134.95
AO3 (Capsules x 50)	GCD14051	£134.95
Translucent (Capsules x 50)	GCD14052	£134.95
Assorted (Capsules x 50)	GCD14053	£134.95

Crown and Bridge Cementation

Maxcem Elite Resin Cement (Standard Kit)

Kerr

Maxcem Elite Standard Kit- A self etch, self adhesive resin cement for indirect restorations. Improved bond strength and stability in room temperature to avoid refrigeration. Optimised resin matrix and filler systems improve wettability, resulting in greater adhesion and allowing for immediate light curing and better shelf-life stability. Conventional intra-oral and root canal tips, which allow for dispensing of material to more difficult areas.

Packing: Each kit contains 5 x 5g syringes (2 x Clear + White + White Opaque + Yellow) + 30 x Regular Automix Tips + 20 Wide Automix Tips + 10 x Intra-Oral Tips + 10 x Root Canal Tips + Technique Guide.

Standard Kit (5 x 5g)	KER14750	£159.95
-----------------------	----------	---------

Maxcem Elite Resin Cement (Value Kit)

Kerr

Maxcem Elite Value Kit- A self etch, self adhesive resin cement for indirect restorations. Improved bond strength and stability in room temperature to avoid refrigeration. Optimised resin matrix and filler systems improve wettability, resulting in greater adhesion and allowing for immediate light curing and better shelf-life stability. Conventional intra-oral and root canal tips, which allow for dispensing of material to more difficult areas.

Packing: Each kit contains 2 x 5g syringes (Clear) + 1 x 11.7g TempBond NE Automix Syringe + 10 x Regular Auto mix Tips + 10 Wide Automix Tips + 10 x Intra-Oral Tips + 10 x Temp-Bond Automix Tips + Technique Guide.

Value Kit (2 x 5g)	KER14751	£79.95
--------------------	----------	--------

Permacem Universal Luting Cement

DMG

Universal luting cement. Indications include the final cementation of crowns, bridges, inlays and onlays.

- Self-cured
- Combines the advantages of glass ionomer and composite
- Continuous fluoride release
- Insoluble in wet environment with low film thickness for perfect fit

Packing: Each Automix pack contains 1 x 52g cartridge + 35 tips. Each Smartmix pack contains 2 x 10g syringes + 20 tips

Automix Pack (1 x 52g + tips)	DMG14070	£34.95
Smartmix Pack (2 x 10g + tips)	DMG14071	£38.95

Permacem-Dual Universal Luting Cement

DMG

Universal dual-curing luting cement. Indications include final cementation of crowns, bridges, inlays, onlays and veneers. Self-cured

- Reduces setting time due to light cure
- Suitable for all ceramic works
- Combines the advantages of glass ionomer and composite
- Continuous fluoride release
- Insoluble in wet environment with low film thickness for perfect fit

Packing: Each Automix pack contains 1 x 52g cartridge + 35 tips. Each Smartmix pack contains 2 x 10g syringes + 20 tips

Automix Pack (1 x 52g + tips)	DMG14075	£49.75
Smartmix Pack (2 x 10g + tips)	DMG14076	£49.75

Crown & Bridge Cementation (Cont'd)

U-Cem Resin Cement

Vericom

WEB ONLY PRICE
£36.95

U-Cem is a dual-cured self-adhesive resin cement for direct restorations particularly in cementation of ceramic, metal or composite inlays, onlays, crowns, bridges, posts and screws. It is available in Universal shade.

- Requires no pre-treatment
- Easy to remove the excess cement
- Higher bond strength on the several prosthesis
- Radiopaque.

Packing: Each pack contains 1 x 9g automix + 10 mixing tips and 10 intra-oral tips.

U-Cem (1 x 9g)	VER14755	£37.95
----------------	----------	--------

EsTemp Implant; Temporary Resin Cement
Spident

EsTemp Implant is a temporary resin cement for implant operations which is designed to be also suitable for various other applications such as cementing for temporary crowns, bridges, inlays, onlays and splints. Eugenol Free.

- Easy mix & loss-zero syringe type
- Flows and mixes easily
- High bonding strength
- Eugenol Free
- Easy to remove

Working Time: 1 minute 30 seconds

Setting Time: 5 minutes (in the mouth).

Packing: Each box contains 1 x 8g Syringe, Mixing Pad, Mixing tips and Eco Tip.

EsTemp (8g Syringe + tips)	SPD14160	£19.95
----------------------------	----------	--------

Temporary Cement & Filling Material

Spacer; LC Temporary Inlay/Onlay Material

Vericom

WEB ONLY PRICE
£18.50

Spacer is a Light-cured temporary material which includes nano-sized silver. It is used for the temporary restoration of inlay and onlay preparations, all kinds of temporary fillings and temporary filling and sealing. It has high elasticity and strength with tight good marginal sealing property and low polymerization shrinkage. It is used without any additional mixing and also can be easily be removed in one piece without leaving any debris in the cavity.

Colour: Blue & Yellow

Packing: Each pack contains 3 x 3g syringes

Spacer Blue (3 x 3g)	VER14220	£19.75
Spacer Yellow (3 x 3g)	VER14221	£19.75

Coltosol F Temporary Filling Material

Coltene Whaledent

Coltosol F is a temporary filling material, which sets with saliva for perfect marginal seal.

- No light curing needed.
- Eugenol free, so won't affect final cementation.
- Radiopaque, creamy consistency for easy adaptation in the cavity.
- No mixing, so no waste of material.
- Easy removal in large portions.
- Ideal surface hardness for posterior temporary fillings.

Packing: Each pack contains 1 x 38g Jar

Jar 38g	COL14310	£7.55
---------	----------	-------

Temporary Cement & Filing Material

Temp Select Temporary Filling Material

Novah Enterprises

Temp Select is a ready to use single paste temporary filling material radiopaque. Used for temporary filling of cavities, temporary sealing of inlay preparations, temporary seal for edicaments and temporary fixing of post crowns. Sets in contact with moisture.

- Strong but yet easily removed
- Two stage setting – rapid set, quick to use
- Good adhesion to dentine – stays in place
- Excellent marginal adaptation
- Standard and High viscosity versions

Colour: White

Packing: Each jar contains 30g.

Standard (1 x 30g)	NOV14320	£5.75
High Viscosity (1 x 30g)	NOV14321	£6.75

Cavit-G Temporary Filling Material

3M ESPE

Temporary filling material ideal for inlay preparations. Removable completely without burs.

Colour: Grey

Packing: Each box contains 28g Jar (Grey)

Jar (28g)	3MM14317	£9.50
-----------	----------	-------

Cavit-W Temporary Filling Material

3M ESPE

Temporary filling material for use following endodontic treatment.

- Reduced final hardness
- Increased adhesion

Colour: White

Packing: Each jar contains 28g (White)

Jar (28g)	3MM14316	£9.50
-----------	----------	-------

Cavition Temporary Filling Material

GC Dental

Temporary filling material for standard cavities and following endodontic treatments. Hardens on reaction with water or saliva. White

Colour: White

Packing: Each pack contains 1 x 30g Jar

Jar (30g)	GCD14315	£9.95
-----------	----------	-------

IRM Temporary Restorative Material

Dentsply

IRM is a zinc oxide eugenol composite with polymer reinforcement indicated as a temporary restorative material or a base/liner material. Available in handmix powder/liquid or capsule deliveries.

- For intermediate restorations intended to remain in place for up to 1 year.
- Provides sedative like qualities on hypersensitive tooth pulp

Colour: Ivory

Packing: Each standard capsule pack contains 50 capsules (0.352g each). Each Handmix combi pack contains powder 40g and liquid 15ml. Each powder refill pack contains 40g and each liquid refill pack contains 15ml

Capsules (50 x 0.325g)	DSP14316	£59.95
Handmix Combi Pack (40g+15ml)	DSP14317	£29.95
Handmix Powder Refill (40g)	DSP14318	£26.75
Handmix Liquid Refill (15ml)	DSP14319	£14.50

Temporary Cement & Filling Material Cont'd

Go Easy Temporary Crown & Bridge Material
First Scientific

WEB ONLY PRICE
£37.45

TempCB is a superb auto-mixing temporary crown and bridge material with higher flexural strength and reduced smear layer. It is based on multifunctional methacrylic ethos. Suitable for bridge spans of up to 4 teeth.

- High fracture toughness
- Low temperature increase during setting
- Methyl methacrylate free
- Natural fluorescence
- Easy to shape and polish

Colour: A2, A3 and B1

Packing: Each pack contains automix cartridge 50ml (4:1) and 8 tips.

A2 Shade (1 x 50ml + tips)	FSC14611	£39.95
A3 Shade (1 x 50ml + tips)	FSC14612	£39.95
B1 Shade (1 x 50ml + tips)	FSC14615	£39.95

Protemp 4 Temporary Crown & Bridge Material
3M ESPE

Bis-acrylic composite with a new generation of sophisticated filters for complete crown and bridge restoration procedures.

- High fracture toughness
- Patient pleasing aesthetics and a comfortable fit
- Easier and faster handling and fabrication

Colour: A1, A2, A3, B3 and Bleach

Packing: Each pack contains 50ml automix cartridge 10:1 + mixing Tips

A1 Shade (1 x50ml)	3MM17351	£64.95
A2 Shade (1 x50ml)	3MM17352	£64.95
A3 Shade (1 x50ml)	3MM17353	£64.95
B3 Shade (1 x50ml)	3MM17354	£64.95
Bleach (1 x50ml)	3MM17355	£64.95

TempBond NE (Non Eugenol)

Kerr

Temp-Bond NE (Without Eugenol) is a temporary Cement for trial cementing restorations or cementing temporary crowns and bridges. This non-eugenol temporary cement will not inhibit the polymerisation of resin cements and acrylic temporaries and offers an option for patients allergic to eugenol. It provides the same flow and retentive properties of TempBond.

Packing: Each Standard Pack contains 50g Base + 15g Accelerator + Mixing Pad

50g Base + 15g Accelerator	KER17300	£20.95
----------------------------	----------	--------

TempBond (With Eugenol)

Kerr

TempBond is a self-curing zinc-oxide eugenol-based temporary cement indicated for temporary crowns, bridges or splints and for trial cementing permanent restorations. Its smooth flow means exceptional handling and results in effortless and complete restoration seating.

Packing: Each Standard Pack contains 50g Base + 15g Accelerator + Mixing Pad

50g Base + 15g Accelerator	KER17301	£20.95
----------------------------	----------	--------

Orthodontic Cementation

Fuji Ortho Self Cured

GC Dental

Resin reinforced glass ionomer orthodontic luting cement. Ideally combining the properties of composites and Glass Ionomer Cements for bonding orthodontic appliances.

- Excellent adhesion even in humid environment
- Easy application
- Easy removal of orthodontic appliances
- Self curing
- Long-term fluoride release
- No discolouration

Packing: Each Intro Pack contains 15g powder 6.8ml liquid, scoop and pad. Each powder refill pack contains 40g powder. Each liquid refill pack contains 6.8ml and each conditioner contains 25g (23.8ml)

Intro Pack (15g + 6.8ml)	GCD14830	£79.95
Powder Refill (40g)	GCD14831	£99.95
Liquid Refill (6.8ml)	GCD14832	£36.95
Conditioner Refill (25g)	GCD14833	£23.95

Fuji Ortho LC Capsules

GC Dental

Light-curing glass ionomer cement for orthodontic bonding. For bonding of orthodontic brackets and bands, light curing provides extended working comfort.

- Light curing within 40 seconds
- Excellent adhesion even in humid environment - Easy application
- Easy removal of orthodontic appliances - No enamel fractures
- Long-term fluoride release
- No discolouration

Packing: Each Capsule Pack contains 50 capsules

Capsules (50 x 0.325g)	GCD14834	£99.95
------------------------	----------	--------

Fuji Ortho LC Conditioner

GC Dental

GC Fuji Ortho Conditioner is enamel pretreatment that improves bond strength, but does not demineralize enamel. To be used with GC Fuji ORTHO LC, which is a light-cured, resin reinforced glass ionomer adhesive suited for bonding orthodontic brackets, bands and appliances.

Packing: Each pack contains 25g (23.8ml)

Conditioner (1 x 25g)	GCD14835	£23.95
-----------------------	----------	--------

Heliosit Orthodontic

Ivoclar Vivadent

Heliosit Orthodontic is a light-cured, highly translucent luting composite for orthodontic brackets (made either of metal or ceramic material). After the enamel has been etched with phosphoric acid (37%), Heliosit Orthodontic is applied to establish a sound bond (metal and ceramic surfaces have to be pre-treated according to manufacturer's directions).

- No dosing or mixing required
- The light-cured material allows the bracket to be conveniently positioned on the tooth enamel surface without time pressure
- The exceptional translucency of the material enables a thorough cure when it is exposed to polymerisation light
- No discolouration

Packing: Each pack contains 3 x 2.5g syringes.

Syringes (3 x 2.5g)	VVD14836	£64.95
---------------------	----------	--------

Bonding Agents & Adhesives

iBOND Self Etch Single Compound Bonding Agent

Heraeus Kulzer

All in one bonding agent that etches, primes and desensitises with just one application. Used for bonding of direct composite restorations and indirect restorations in combination with light curing luting cements, sealing of hypersensitive areas of teeth. Available in Bottle Assortment or Bottle Value Packs.

Packing: Each box of Bottle Assortment contains 4ml Bottle + 50 Application Tips + Mixing Well & Pictorial Card
Each box of Bottle Value Pack contains 3 x 4ml

Bottle Assortment (1 x 4ml)	HER14560	£62.95
Bottle Value Pack (3 x 4ml)	HER14561	£149.95

iBOND Total Etch Single Compound Bonding Agent (Bottle Value Pack)

Heraeus Kulzer

Two step etch and rinse bonding system which primes, bonds and desensitises. Used for composites, compomers, sealing under amalgams, adhesive for direct restorations and treatment of hypersensitive teeth

- Light curing one component adhesive .
- Offers a range of indications with a simple, single layer application for high bond strengths and an excellent marginal seal.
- One coat is all that is required, thus saving time and material costs.
- Filled with nano-particles for extra strength and controlled handling.

Packing: Each box contains 3 x 4ml Bottles

Bottle Value Pack (3 x 4ml)	HER14563	£99.95
-----------------------------	----------	--------

Bonding Agents & Adhesives (Cont'd)

EsBond; Self Etching LC Bonding Agent Spident

5th generation bonding agent that provides high bonding strengths in a convenient single bottle application. It is a single compound bonding agent designed to bond all classes of direct composite restorations to dentin, enamel as well as composite, treated porcelain and set amalgam.

- Direct light-curing restorations with high bonding strength
- Wet bonding system with Noval adhesive monomer
- Hygienic single-dose for long lasting restorations

Packing: Each box contains 5ml bottle of bonding agent.

Bonding Agent (1 x 5ml)	SPD14551	£19.95
-------------------------	----------	--------

U-Bond Self-Etching LC Adhesive

Vericom

U-Bond is one compound self-etching Light-cured adhesive designed to bond composite to dentin and enamel. It is the 7th generation of the one-step bonding system.

- Only one coat
- Easy and stable
- No shaking or mixing required
- Ultimate technology, Uniform Property & Ultra Strength

Packing: Each box contains 1 x 5 ml bottle of adhesive

Adhesive (1 x 5ml)	VER14401	£25.95

Varnish & Desensitiser

Gluma Desensitiser Liquid Heraeus Kulzer

**WEB ONLY
PRICE
£54.95**

For rapid and lasting protection against dental pain. It reduces or alleviates postoperative pain due to preparations and relieves pain in hypersensitive cervical areas.

- A one compound material, not requiring mixing or light curing.
- Can be used with all bonding and restorative materials in any situation.

Packing: Each pack contains 1 x 5ml bottle of desensitiser

Liquid Desensitiser (1 x 5ml) HER14915 **£59.95**

Voco Profluorid Varnish & Desensitiser

Voco

Profluorid Varnish is a tooth shaded, protective varnish with fluoride for desensitising teeth and for treatment of exposed root surfaces, cervical defects, damaged enamel and carious lesions as well as for sealing dentine tubules during cavity preparation and treatment of hypersensitive teeth and cervical areas after professional cleaning and calculus removal.

- 5% Sodium fluorides varnish
- Tooth shaded varnish
- Pleasant fruit flavour (melon) so that it is especially well-suited for the treatment of patients with limited compliance, e.g. children
- Adheres well to moist surfaces and sets quickly in seconds after contact with saliva.
- High, immediate fluoride release.

Packing: Each pack contains 1 x 10ml tube of varnish

Profluorid Varnish (1 x 10ml) VOC14910 **£19.95**

Isodan Desensitising Solution

Septodont

Isodan desensitising solution for the treatment of dental hypersensitivity, permeates and seals the dental tubules and prevents movement of intratubular fluids and renders them more resistant to the abrasive effects of regular brushing.

- Long term relief for patient.
- Contains sodium fluoride which reinforces enamel/dentine barrier.
- Can be used under amalgam and composite restorations.

Packing: Each pack contains 1 x 5ml + 20 applicator brushes.

Isodan (5ml + 20 brushes) SEP14913 **£37.95**

Disinfectant Surface Wipes

Mikrozyd Wipes & Refills Plus Schulke

High quality Alcohol-based rapid cleaner and disinfectant wipes. Ideal for all dental surfaces, including work surfaces, plastics and even the Dental Chair. Broad spectrum of efficacy, active against bacteria including TB, fungi, Hepatitis B viruses, HIV, HCV, adenoviruses, papovaviruses and polioviruses. Dries quickly and is ideal for use between patients.

Advantages:-

- No smearing or residues
- Rapid drying
- 2 minute contact time

Packing: Each Tub contains 200 pcs and each Refill Bag contains 200 pcs of Jumbo size (200 x 220 mm).

Tub (200 Wipes)	SCH15100	£6.25
Refill Bag (200 Wipes)	SCH15101	£6.15

Mikrozyd Alcohol-Free Wipes & Refills Schulke

High quality Alcohol-Free cleaner and disinfectant wipes. Ideal for all dental surfaces, including work surfaces, plastics and even the Dental Chair. Broad spectrum of efficacy, active against bacteria, fungi, viruses (e.g. Hepatitis B, HIV, rotavirus, vaccinia) in just 1 minute. Dries quickly and is ideal for use between patients and for alcohol sensitive surfaces.

Advantages:-

- Alcohol Free
- No smearing or residues
- Rapid drying
- 1 minute contact time

Packing: Each Tub contains 200 pcs and each Refill Bag contains 200 pcs

Tub (200 Wipes)	SCH15110	£6.95
Refill Bag (200 Wipes)	SCH15111	£6.85

Continu 2-in-1 Surface Cleaning Wipes Nuview

Continu 2 in 1 anti-microbial surface cleaning wipes is an Alcohol Free surface cleaner which offers a 2 in 1 solution that removes dirt or grease whilst disinfecting the treated area to ensure surfaces are clean as well as decontaminated. Ideal for all dental surfaces, including work surfaces, plastics and even the Dental Chair. Active against bacteria, fungi, viruses (e.g. MRSA including PVL, C.Diff, E.Coli, Salmonella, HIV, Hepatitis B, TB, Legionella, Influenza A and many others) therefore effective to EN test standards for fungi, bacteria & viruses.

- Complies with the HTM01-05 requirements to clean surfaces with a suitable detergent.
- Water-based solution that is much safer and more environmentally friendly than traditional Alcohol or bleach based disinfection products.
- Independently tested and significantly exceeds the requirements of British Standards EN1276 and EN1650.
- Kills more than 99.999% of harmful micro-organisms in less than 30 seconds.
- Has the same chemical hazard rating as water, therefore very safe on skin.

Packing: Each Tub contains 200 pcs and each Refill Bag contains 200 pcs.

Tub (200 Wipes)	CON15120	£5.35
Refill Bag (200 Wipes)	CON15121	£4.90

Disinfectant For Dental Impressions

Continu Dental Impression Disinfectant Nuview

Continu Dental Impression Disinfectant is safe to use on all types of impressions from alginate to silicone without causing any shrinkage or distortion. Effective within 30 seconds and has been shown in independent laboratory tests to inhibit fungal growth for up to 15 days and may be used either as a spray for instant disinfection or a bath for longer term results. The HTM 01-05 requires that a label should be affixed to the package if impressions are sent out of the Practice, the 1 litre bottle include 20 adhesive stickers respectively confirming decontamination has taken place. Complies with the recommendations of HTM-05 Decontamination in primary care dental practice.

Packing: Each bottle contains 1 litre with 20 labels.

Bottle 1 Litre + 20 labels	CON15060	£7.45
----------------------------	----------	-------

Disinfectant & Cleaning For Instruments

Continu Instrument Cleaner (Concentrated) Nuview

Continu Instrument Cleaner is a concentrated solution which should be diluted to 5%. It is ideal for pre-cleaning instruments as it is so gentle that it will not damage equipment and the surfactant is sufficiently powerful to remove debris. It has been shown in tests against leading alcohol based alternatives to eliminate protein from surfaces. Available in a 1 litre bottle with measuring cap that delivers 20 litres of cleaning solution. Complies with the recommendations of HTM-05 Decontamination in primary care dental practice.

Packing: Each bottle contains 1 litre

Bottle 1 Litre	CON15420	£12.00
----------------	----------	--------

Alkazyme Loose Powder Alkapharm

Alkazyme Instrument Disinfectant Powder is a highly effective dual purpose enzymatic cleaner and disinfectant for the decontamination of surgical, medical and dental instruments prior to sterilisation. Alkazyme will rapidly (in just 5 minutes) remove adhered biofilm and proteins (blood, saliva, faeces etc). Non-toxic and biodegradable. Suitable for use in either static or ultrasonic baths and auto washers. Each 750g economy tub of loose powder makes 150 litres of solution.

- Cleans & disinfects in one operation
- Non-toxic, biodegradable and free from aldehyde, chlorine or phenols.
- Pleasant Fragrance
- Each 5 gram dose of powder makes 1 litres, therefore each Tub of 750 gram loose powder makes 150 litres of solution

Packing: Each Tub contains 750g loose powder plus 5 gram dosing spoon.

Powder 750g Tub	ALK15420	£51.95

Test Pack x 20	NOV15750	£44.95
----------------	----------	--------

Autoclave Indicators Strip/Tape/Label

TST Autoclave Test Strips

Kavo

Test each cycle/per tray

The TST Steriliser Control is one of the most sophisticated chemical control devices produced for all non vacuum autoclaves. As an integrated control system it registers a 'PASS' only when it has been subjected to the required heat/time ratio in saturated steam. Should one of the three criteria be missing TST Control will not register a PASS. Available in 121 °C - 15 minutes calibration and 134 °C - 3.5 minutes calibration versions. Complies with the guidelines and recommendations of HTM0105. Test each cycle/per tray.

- Class 6 ISO 11140 Part 1 Indicator for steam sterilisation
- Easy to interpret with clear colour change
- Easy to record

Packing : Each box contains 100 strips.

121 °C/ 15 mins (100 strips)	KAV15712	£13.95
134 °C/ 3.5 mins (100 strips)	KAV15713	£12.95

NovahDent Steam Indicator Strips For Steam Sterilisation

Novah Enterprises

Test each cycle/per tray

NovahDent are Class 6 Time/Steam/Temperature Indicator Strips for steam sterilisation, designed to show clear exposure to saturated steam sterilization cycle by changing colour from light blue to black. It will only register a 'pass' when it has been subjected to the required heat/time ratio in saturated steam and fixed time. Should one of the three criteria be missing the chemical control integrator strip will not register a pass. 121 °C - 15 minutes and 134 °C - 3.5 minutes. Non toxic. Complies with the guidelines and recommendations of HTM0105. Test each cycle/per tray.

- Dual calibrated for 3.5 min at 134°C cycle or 121°C at 15 minutes cycle
- Class 6 Indicator for steam sterilisation
- Easy to interpret with clear colour change
- Easy to record

Size : 15mm x 99mm

Packing : Each box contains 200 pieces.

Steam Indicator Strips (200pcs)	NOV15711	£12.95

Complies with the guidelines and recommendations of HTM0105. Test each cycle/per tray.

Packing: Each box contains 250 pieces.

Container label/indicator (250pcs) MED15720 **£11.95**

Indicator Tapes For Steam Sterilisation Novah Enterprises

Test each cycle/per tray

NovahDent Self-adhesive colour changing sterilisation indicator tape for use in autoclaves to indicate that sterilisation has taken place.

Size : 12mm, 19mm and 25mm

Packing: Each pack contains 1 x 50m.

12mm x 50 m	NOV15740	£1.95
19mm x 50 m	NOV15741	£2.95
25mm x 50 m	NOV15742	£3.45

Performer; Sequential 3 Phased Sterilisation Integrator For Vacuum Assisted Autoclaves Medical Pack

Test each cycle/per tray

Performer, sequential sterilization integrator is designed to control sterilization processes in high vacuum autoclaves, as well as in gravity removal type autoclaves, working at all sterilization cycles with standard temperatures of 121 degree C or 134 degree C. Complies with the guidelines and recommendations of HTM0105. Test each cycle/per tray.

- Laminated to avoid possible ink transfer to sterilized items.
- The three indicator points provides more indications than a simple indicator nonsequential.
- Different colours show different distinguished calibrations.
- Just one product to verify the cycles at different temperatures.

Packing: Each box contains 250 pieces.

3 phased Integrator (250pcs) MED15700 **£15.95**

Helix Test

Valisafe Helix Steam Penetration Test Kit Medisafe UK Ltd

Indicator change from pink to black demonstrates correct steam sterilisation conditions. Provides permanent record of compliance. 3.5 minutes at 134°C.

Packing: Each kit contains 1 Helix Device + 250 strips.

Helix Test Kit + 250 strips DEY15731 **£73.95**

LavaDent

Protein Test

Protein Testing Kit
Alkapharm

Weekly Test

Alkapharm Protein Testing Kit has been scientifically developed to help determine the effectiveness of cleaning or disinfection procedures within the medical or dental clinical environment. Used to identify even low protein levels on any hard surface including surgical, medical and dental instruments, washer disinfectors, ultrasonic cleaners and surfaces of medical furniture and equipment, etc. This test can also be used for detecting protein residues that may have remained on surgical instruments after going through a washer-disinfector process. Complies with the guidelines and recommendations of HTM2030 & HTM0105. Weekly Test.

- Easy to use.
- Can rapidly (in 5 minutes) identify protein residues as low as 20 ppm remaining on hard surfaces.

Packing: Each kit contains 20 tests.

Protein Test Kit (20 tests) ALK15460 **£39.95**

Temporary Single Crowns

Temporary Single Crowns (Polycarbonate)

Kudos

**WEB ONLY
PRICE
£59.95**

Kudos temporary single crowns are manufactured from polycarbonate and anatomically shaped allowing dental practitioners to perform restoration of top aesthetic quality. Exact same numbering system as dentary notation. Easy to order and refill. Most widely used numbering system worldwide.

Size: 4F/F Assorted sizes

Colour: A2 & A3

Packing: Each pack contains 560 pieces; 5 pieces x 4F/F (i.e. 5 x 4 x 28). Each Refill pack contains 5 pieces.

A2 (560pcs)	KUD17100	£65.00
A3 (560pcs)	KUD17101	£65.00
Refills (5pcs)	KUD17102	£1.00

Strip Crowns Dial Pack (Incisor)

Kemdent

Kemdent's range of Strip Crowns offers the dentist a comprehensive selection of anatomically contoured flexible tooth forms, catering for upper anteriors - centrals, laterals, canines and premolars as well as lower incisors.

Packing: Each dial pack contains 30 assorted pieces (pairs of all centrals only). Each refill pack contains 3 pieces of any mould left or right.

Dial Pack (30 pieces)	KEM17120	£33.55
Refill Pack (3 pieces)	KEM17121	£5.55

Temporary Crown & Bridge

Strip Crowns Dial Pack (Standard)

Kemdent

Kemdent's range of Strip Crowns offers the dentist a comprehensive selection of anatomically contoured flexible tooth forms, catering for upper anteriors - centrals, laterals, canines and premolars as well as lower incisors. Strip Crowns are suitable for use with all types of composites and other filling materials. The inside of the strip crown is highly finished which means that hardly any further polishing is required after removal. In addition the crown can be adapted for individual cases; they can be cut to the precise shape desired by using a pair of scissors. or enlarged by using a heated rounded instrument. Of particular importance is the extreme thinness - 0.18mm on average.

Packing: Each dial pack contains 30 assorted pieces (1 pair of all central, canine and premolar moulds. Each refill pack contains a pair of any mould left or right.

Dial Pack (30 pieces)	KEM17110	£33.55
Refill Pack (2 pieces)	KEM17111	£3.75

Temporary Crown & Bridge (Polycarbonate)

Kudos

Kudos polycarbonate temporary crown and bridge utilizes a simplistic design that maximizes its function for dental temporary crown and bridge, precise biometrics for implant located, excellent immediate loading for implantology. The design of the flex crowns allows the dentist the flexibility of application and ease of fabrication and because it is extremely thin the dentist can quickly judge the patient's overall condition as well as it provides an excellent frame.

- Easy to use
- Safe and comfortable for the patient
- Cost effective
- Made from unique food grade polycarbonate that is both durable and flexible
- Firm enough to be used as temporary crown & bridge for couple of months or longer to protect the patient's teeth and gums from trauma.

Size: 4F/F Assorted sizes

Colour: A2 & A3

Packing: Each pack contains 8 x 14 (i.e. 112 pieces)

A2 (112pcs)	KUD17200	£35.00
A3 (112pcs)	KUD17201	£35.00

Temporary Filling Material

Coltosol F
Coltene Whaledent

Coltosol F is a temporary filling material, which sets with saliva for perfect marginal seal.

- No light curing needed.
- Eugenol free, so won't affect final cementation.
- Radiopaque, creamy consistency for easy adaptation in the cavity.
- No mixing, so no waste of material.
- Easy removal in large portions.
- Ideal surface hardness for posterior temporary fillings.

Prophylactic Strips

Prophylactic Strips

TDV Dental

The Stainless Steel Prophylactic strip is an indispensable aid in prophylaxis procedures for the removal of dental plaque and tartar without damaging the enamel surface. The tartar and plaque are removed by a mechanical action provided by the circular micro-blades, located around the holes on one of the strip's faces, which has powerful mechanical action against the calculus, thus preserving the integrity of enamel and restorative materials. Due to its narrow thickness, it easily accesses the interproximal region, where its active face efficiently removes dental calculus.

- Easy, fast and safe to remove tartar without damaging the enamel or restoration materials.
- Non-abrasive
- Easily accesses the interdental areas

Size: 4mm x 100mm

Packing: Each pack contains 10 pieces.

Pack of 10 strips	TDV19401	£6.50

Finishing & Polishing Kits

Super-Snap Rainbow Technique C/A Kit Shofu Dental

Super-Snap is designed for easy, fast and safe contouring, finishing and polishing of all microfilled and hybrid composites.

- Ultra-thin, colour coded discs indicate the grit and function to take you step-by-step to the finest restorations you can achieve.
- Four different colour-coded and grit-sizes in both standard and mini-discs without metal centres - giving protection against ditching or scoring - on composite or compomer restorations.
- For interproximal areas use polystrips which are matched to give the same finish as the discs.

Types: L506 (Black, Coarse Contour, Safeside Down)
L508 (Dark Violet, Medium Finish, Safeside Down)
L509 (Light Violet, Medium Finish, Safeside Up)
L501 (Dark Green, Fine Polish, Double Sided)
L502 (Dark Red, Extra-Fine Polish, Double Sided)

Packing: Each kit contains 100 Standard Discs, 80 Mini Discs, 40 Polystrips, 2 Dura-White Stones (Shapes CN1 & FL2), Composite Fine Midi-Point and 2 CA Mandrels, . Each refill disc pack contains 50 pieces.

C/A Kit (500)	SHF19510	£54.95
Disc Refills:-		
Type L506 (50 pcs)	SHF19511	£12.95
Type L508 (50 pcs)	SHF19512	£12.95
Type L509 (50 pcs)	SHF19513	£12.95
Type L501 (50 pcs)	SHF19514	£12.95
Type L502 (50 pcs)	SHF19515	£12.95

Composite Polishing Kit Shofu Dental

Polishing kit for polishing occlusal and lingual surfaces of composites/microfill restorations. CA Shank. Dura-Green, Dura-White stones and CompoSite Fine polishers are autoclavable for reuse.

Packing: Each kit contains 2 Dura-Green (CN1 & FL2) 4 Dura-White Stones (CN1 & FL2) 4 CompoSite Points and 3 CompoSite Fine Points.

Composite Polishing Kit	SHF19521	£15.95
-------------------------	----------	--------

Hiluster Plus Polishing System (Kit)

Kerr

Hiluster PLUS Polishing System takes advantage of the latest fine particle abrasive technology that is optimized for today's sophisticated composite restorations.

- High gloss results in only 2 steps with a system based on the Identoflex technology
- Optimum flexibility of the polishing matrix for excellent adaptation to the restoration
- Pre and gloss-polishing in one step by efficient GlossPLUS Polisher with integrated aluminium oxide particles

Packing: Each kit contains 3 GlossPlus flames, 3 GlossPlus minipoints, 3 GlossPlus cups, GlossPlus discs; 2 HilusterPLUS Dia polisher frames, 2 Hiluster PLUS Dia polisher Minipoints, 2 HilusterPLUS Dia polisher cups and HilusterPLUS Dia polisher discs.

Polishing assortment kit	KER19520	£39.95
--------------------------	----------	--------

Enamel Adjustment Kit Shofu Dental

The Enamel Adjustment Kit is designed for intra-oral adjustments of natural dentition or porcelain and super polishing the adjusted surfaces. Ideal for adjustment in the mouth of porcelain restorations or natural teeth and superpolishing adjusted surfaces. Dura-White stones, and Ceramiste polishers are autoclavable for reuse.

Packing: Each kit contains 3 Dura White Stones and 9 Ceramiste Points.

Enamel Adjustment Kit	SHF19522	£16.95
-----------------------	----------	--------

Porcelain Adjustment Kit Shofu Dental

The Porcelain Adjustment Kit is designed for chairside adjustment of porcelain restorations and polishing adjusted surfaces. Dura-White stones, and Ceramiste polishers are autoclavable for reuse.

Packing: Each kit contains 3 Dura-White Stones for adjusting, 9 Ceramiste Ceramiste Points in 3 Grit Ranges from finishing to polishing.

Porcelain Adjustment Kit	SHF19523	£16.95

WaveOne Gold Reciprocating Files RA Dentsply

Pre-sterilised endodontic file for simplicity, using only one rotary file in root canal treatments. Both the extended size range (Small, Primary, Medium, Large) as well as the GOLD technology enable a wider range of canal morphologies to be treated. Reinforced safety due to GOLD technology which boosts cyclical fatigue resistance and a reduced screwing effect. Increased cutting efficiency shortening shaping time, leaving more time for irrigation.

Size: Primary, Large, Medium & Small in 21mm & 25mm Lengths.

Packing: Each pack contains 3 pieces.

21mm Primary (1 x 3)	DET22005	£33.95
21mm Large (1 x 3)	DET22006	£33.95
21mm Medium (1 x 3)	DET22007	£33.95
21mm Small (1 x 3)	DET22008	£33.95
21mm Assorted (1 x 3)	DET22009	£33.95
25mm Primary (1 x 3)	DET22005A	£33.95
25mm Large (1 x 3)	DET22006A	£33.95
25mm Medium (1 x 3)	DET22007A	£33.95
25mm Small (1 x 3)	DET22008A	£33.95
2mm Assorted (1 x 3)	DET22009A	£33.95

WaveOne Reciprocating Files RA Dentsply

M-Wire, pre-sterilised NiTi rotary endodontic file for simplicity, using only one rotary file in root canal treatments. Optimal cutting efficiency, reducing the risk of a screwing effect and file breakage. The Waveone motor works in reciprocating mode, meaning it continuously changes its rotating direction during the shaping procedure. Using a large rotating angle in the cutting direction provides high efficiency and using a smaller angle in the reverse direction helps the Waveone file to successively progress along the canal path, whilst respecting the root canal anatomy. The Primary Waveone file is designed to fully shape the majority of all root canals. Small or large can be used in other instances.

Size: Primary (Red), Large (Black), Small (Yellow) and Assorted in 21mm Lengths.

Packing: Each pack contains 3 pieces.

Primary (1 x 3)	DET22001	£33.95
Large (1 x 3)	DET22002	£33.95
Small (1 x 3)	DET22003	£33.95
Assorted (1 x 3)	DET22004	£33.95

ProFile Orifice Shaper RA Dentsply

ProFile offers maximal security due to non-cutting radial land profile and u-shaped x-section. The design enables successful treatment of the three canal thirds using the crown-down technique. High flexibility allows for soft canal shaping, especially in the apical third.

Size: 1, 2, 3, 4, 5, 6 & Assorted in 19mm lengths.

Packing: Each pack contains 6 pieces

Size 1; 19mm (1 x 6)	DET22021	£43.95
Size 2; 19mm (1 x 6)	DET22022	£43.95

Assorted 1- 6 ; 19mm (1 x 6)	DET22020	£43.95

Endodontic Instruments (Cont'd)

ProTaper Finishing Files Dentsply

ProTaper universal is an ideal choice for daily practice as a solution for rapid and high quality canal shaping. Only 3 ProTaper treatment files are needed to shape the majority of canals. The colour coded and easy to follow protocol is the same sequence for all canals, simplifying the procedure. Deviations from the canal are minimised due to the round ended guiding tip. Anatomically difficult cases can be treated safely..

Size: F1, F2, F3, F4 & F5 in 19mm, 21mm, 25mm & 31mm lengths.

Packing: Each pack contains 6 pieces.

Size F1; 19mm (1 x 6)	DET22031	£39.95

Dry Socket Treatment

Alveogyl Paste Septodont

Alveogyl paste is an antiseptic, analgesic self-eliminating paste for the treatment of dry socket or prophylactic post extraction dressing in patients with a history of dry sockets.

- One-step self-eliminating treatment
- Requiring no suturing and no special attention other than observation of the healing process.
- Provides a soothing effect on the alveolar tissues thus helping to rapidly alleviate the pain.
- Its fibrous consistency, due to the Penghawar fibres, allows an easy filling of the socket and a good adherence to the alveolus.

Packing : Each jar contains 12g of Alveogyl paste

Alveogyl paste (12g)	SEP24010	£28.95
----------------------	----------	--------

Wound Management

Coe-Pak Periodontal Dressing GC Dental

Coe-Pak Periodontal dressing in tubes is a two component material for wound dressing to cover stitches or to stabilise loose teeth. Available in regular set and hard & fast set.

- Easily mouldable.
- Elastic consistency.
- Supports process of healing.
- Eugenol free.

Packing : Each pack contains 90g Base + 90g Catalyst

Collagen Matrix Cube Horien Biochemical

A fully absorbable advanced wound care device for the management of wounds including for bone regeneration around implant, ridge augmentation, implant defect, periodontal defect, extraction suture sites, sinus lift and apical root resection.

- Fully absorbable type 1 collagen
- High mechanical strength for easy handling
- Space created to guide healing and regeneration of bone and surrounding tissue
- Resorption time 3 to 4 months

Size : 10mm x 10mm x 10mm

Packing : Each pack contains 50 pieces

10mm x 10mm x 10mm (50pcs)	HRB24030	£35.00
----------------------------	----------	--------

Collagen Matrix Plug Horien Biochemical

A fully absorbable advanced wound care device for the management of wounds including for bone regeneration around implant, ridge augmentation, implant defect, periodontal defect, extraction suture sites, sinus lift and apical root resection. Because of its homeostasis and biocompatibility characteristics it can be used to fill the teeth extraction socket to effectively controls bleeding usually within 30 seconds and to protect the wound surface. The porous sponge-like configuration of the product and the fibrillar atelo-collagen provides three-dimensional scaffolding for additional strengthening of the blood clot. It also serves as a scaffold for surrounding cells and holding the space for bone grafting material in position.

- Fully absorbable type 1 collagen
- High mechanical strength for easy handling
- Nontoxic and nonpyrogenic
- Characteristic of homeostasis and biocompatibility
- Space created to guide healing and regeneration of bone and surrounding tissue
- Resorption time 3 to 4 months

Size : 8.3mm x 20mm and 8.3 x 30mm

Packing : Each pack contains 10 pieces

8.3mm x 20mm (10pcs)	HRB24031	£30.00
8.3mm x 30mm (10pcs)	HRB24032	£35.00

SAME DAY DISPATCH

Place your order before 1:30pm and your order will be dispatched the same day.

LavaDent

Fluoride Supplement & Desensitiser

Voco Profluoride Varnish & Desensitiser
Voco

Profluorid Varnish is a tooth shaded, protective varnish with fluoride for desensitising teeth and for treatment of exposed root surfaces, cervical defects, damaged enamel and carious lesions as well as for sealing dentine tubules during cavity preparation and treatment of hypersensitive teeth and cervical areas after professional cleaning and calculus removal. Thanks to its sodium fluoride content of 5%, VOCO Profluorid Varnish effectively contributes to fluoridation and thus the remineralisation and fortification of tooth substance.

- Tooth-shaded varnish
- High, immediate fluoride release
- Easy to apply – with excellent adhesion even to wet tooth surfaces
- Pleasant fruity flavour (Melon) so that it is especially well-suited for the treatment of children with limited compliance, e.g. children.
- Economical application in thin layers, high yield

Packing: Each pack contains 10ml tube.

Profluorid Varnish (1 x 10ml)	VOC14910	£17.50
-------------------------------	----------	--------

Isodan Desensitising Solution

Septodont

Solution for the treatment of dental hypersensitivity, permeates and seals the dental tubules and renders them more resistant to the abrasive effects of regular brushing.

Packing: Each pack contains 1 x 5ml + 20 applicator brushes.

Isodan (5ml + 20 brushes)	SEP14913	£37.95
---------------------------	----------	--------

Prophylaxis Powders

Sylc Prophy Powder
Denfotex Research

Sylc is an innovative prophylaxis powder for immediate desensitization, effective cleaning and teeth whitening in one step. Amalgamator

Amalgamator YDM

YDM Pro Amalgamator is a new mixer for all mixed capsules. The universal high-speed amalgamator is controlled by a microprocessor, which ensures a precise, controllable and consistent mixing. With a safety cover, it will deactivate automatically when you open the front cover to access the capsule.

Features:

- Silicone rubber buttons for comfortable touch
- LED display
- Noiseless and stable operation
- Easy operation and sturdy capsule holder
- Sealed mixing area with safety cover
- Ergonomic design

Technical Data:

- Mixing frequency; 5000 & 45000 oscillations per sec +/-5%
- Mixing time; Adjustable from 1 to 99 seconds
- Operating temperature; 5 to 40° C
- Input voltage 220V
- Input power 35W
- Dimensions 225L x 2215W x 110H (without power cord)
- Weight; 2.2Kg
- Amplitude; 15mm
- Operation mode; Intermittent

Amalgamator YDM26100 **£150.00**

Ultrasonic Cleaning Baths

Ultrasonic Cleaning Baths Codyson

Digital Ultrasonic Cleaning Bath with 2.5 Litre capacity stainless steel tank, low noise emission and built-in heater.

Features:

- Lengthened tank
- Clear digital display
- Strong high power transducer
- 5 Recycle digital timer
- Built-in Heater
- Circuit Protector
- Radiator Fan
- Wet-proof PCB
- Strong Plastic housing

Technical Data:

- Ultrasonic frequency; 42,000 Hz
- Material of Tank; Stainless Steel SUS304
- Material of Housing; Plastic ABS757
- Tank size; 250 x 150 x 80 mm
- Tank Capacity; 2.50 Litres
- Input voltage 220V
- Input power 170W
- Overall Dimensions; 340 x 225 x 225 mm
- Net Weight; 2.5Kg
- Gross Weight; 3.0Kg
- 5 Recycle digital Timer; 180s, 280s, 380s, 480s, 90s

Ultrasonic Cleaning Bath COD26150 **£180.00**

LED Curing Lights

Penguin LED Curing Light

Coxo Medical

Penguin Cordless LED Curing Light with high intensity and short curing times starting from 5 seconds for solidifying all brands of resin materials.

Features:

- High power LED, professional dental spectrum
- Bionic design with LCD display
- Optional working modes with strong, low, gradually strong, flashing
- Solidifying time; 5 - 40 seconds, adjustable
- Temperature inspect, over-temperature protection
- High capacity Li-ion battery, and can be charged with charger base or adaptor
- Wireless and corded are compatible in one
- Built-in high sensitive LED light measuring system

Technical Data:

- Charger (adaptor) working voltage; AC100 - 240V, 50/60 Hz
- Wavelength; 420 - 480 nm
- Light power; More than 1200 mw/cm²
- Solidification time and depth ; 5 seconds 3mm
- Weight; 1.5Kg

Packing: Each pack contains 1 curing light + 1 charger

Curing Light + Charger COX26850 **£155.00**

Super LED Curing Light

Coxo Medical

Super Cordless LED Curing Light combines a slim curing probe with high output in a lightweight pen style design with high intensity for solidifying all brands of resin materials.

Features:

- High power LED, purely dental blue light
- High articulation optic fibre
- Three working modes; strong, gradually strong, flashing
- Optional working time; 10 sec, 15 sec, 20 sec
- Automatic inactive, automatic power off
- Super capacity battery with low battery alert

Technical Data:

- Charger (adaptor) working voltage; AC100 - 240V, 50/60 Hz
- Solidification time & depth; 5 seconds 3mm
- Light power; 1200 mw/cm²
- Size; 24.5 x 27.0 x 7.5cm
- Weight; 0.8 Kg

Packing: Each pack contains 1 curing light + 1 charger

Curing Light + Charger COX26870 **£130.00**

Terms and Conditions of Sale**1 Definitions**

In these Terms and Conditions of business the following meanings shall apply:-
 "the Company" shall mean Lavadent limited of 41 Willoughby Road, London N8 0JG.
 "the Customer" shall mean any person or persons, firm or company who buys or agrees to buy goods from the company.

2 Terms & Conditions Applicable

- 2.1 These terms and conditions shall apply to and govern all contracts for the sale of goods or the supply of services or both entered into by the Company. All conditions of the Customer or other terms and conditions or warranties whatsoever whether communicated before or after these Terms and Conditions are excluded from the contract or any variations thereof unless otherwise expressly accepted by the Company in writing and the Customer's own conditions shall not be regarded as a counter offer.
- 2.2 The exercise by the Company of any right pursuant to these Terms and Conditions shall be without prejudice to any other right available to it whether hereunder or under general law.

3 Representations

- 3.1 The Customer acknowledges that no contact was entered into in reliance on any representation other than those incorporated in these Terms and Conditions.
- 3.2 Unless otherwise specifically stated all prices quoted by the Company are exclusive of Value Added Tax which shall be due at the rate in force on the date of the Company's invoice to the Customer.

4 Delivery

- 4.1 Delivery dates and times specified by the Company are approximate only, unless expressly agreed by the Company in writing, time for delivery is not and shall not be deemed to be of the essence of the contract. The Customer shall make all arrangements necessary to take delivery of goods whenever they are tendered for delivery.
- 4.2 If goods are sold and delivered to the Customer in instalments each delivery shall constitute a separate contract, and failure by the Company to deliver any one or more of the instalments or any claim by the Customer in respect of any one instalments shall not entitle the Customer to treat the contract as whole as repudiated.
- 4.3 If there is not complete satisfaction with any goods received from the Company, the customer may return them for credit, provided that:-
- The items are received in a readily saleable condition within 30 days of delivery to the Customer;
 - The Company is notified of shortages, breakages and goods received in a unusable condition within 3 days of delivery;
 - The goods must be accompanied by the Request for Credit Slip with full details for credit request.

5 Returned Goods

- 5.1 Goods which are not shown in the Company's catalogue in force at the time of order will only be accepted for return and credit by the Company when the Company have given prior authorization. Where authorization is given the Company reserves the right to raise a reasonable cancellation charge.

- 5.2 Goods which are shown in the Company's catalogue in force at the time of order will be accepted for return only upon the following conditions:-
- Goods must be returned using the return slip printed on the Company's delivery note, and must be accompanied by the Customer number, the number of the invoice upon which the goods were supplied and full details of the reason for return. Goods will not be accepted for return and credit if the original invoice cannot be traced.
 - Goods returned must be in a condition suitable for re-sale, and inclusive of all original packing, operating instructions, guarantee card and accessories.
- 5.3 Goods which are accepted for return will be acknowledged or a credit note will be raised within 10 days of receipt of such goods by the Company. Goods which are damaged or lost in transit will not be credited by the Company as it is the Customer's responsibility to ensure that Goods are adequately packaged and labelled.
- 5.4 Customer request for spares and goods that are ordered by special request or sent direct from suppliers are purchased on non refundable arrangement.

6 The Price and Payment

- 6.1 The price to be paid by the Customer shall be the sum(s) shown by the Company's invoice(s). This price shall be based on the sum quoted to the Customer in the Company's catalogue, but the company reserves the right to amend those prices at any time in its absolute discretion and to correct clerical errors or omissions.
- 6.2 Any orders under the value of £75 a £5.00 postal charge will be applied.
- 6.3 Orders placed with and sent directly from manufacturers will incur a carriage charge invoiced by the Company.
- 6.4 Payment of the price and VAT shall be due within 30 days of the date of the Company's invoice unless different time for payment is specifically agreed between the parties in writing. Time for payment shall be of essence and payment must be made without set-off or credit.
- 6.5 Where goods are delivered in instalments the Company may invoice each instalment separately and the Customer shall pay such invoice in accordance with these Terms and Conditions.
- 6.6 If the Customer is in default in paying any sum as and when it becomes due, the Company shall have the right to suspend all further deliveries until the default is made good and/ or to cancel the contract so far as any goods remain to be delivered there under. Additionally, payment for all goods supplied to the Customer shall become immediately due and owing, whether previously invoiced or not.
- 6.7 In the event that the Customer fails to pay any monies by the due date, the Company shall be entitled to charge interest on the outstanding monies both before and after Judgment from the due date to the date of actual payment at the rate of 2% per month or part month. The Customer shall also indemnify the Company against expenditure on all costs to recovery including without limitation legal fees, cost and disbursements reasonably incurred. Any banking charges incurred by the Company in respect of dishonoured cheques will be payable by the Customer.

7 Title and Risk

- 7.1 The risk in goods sold to the Customer shall pass to the Customer upon tender for delivery so that the Customer is responsible for all loss damage or deterioration of the goods or a part thereof at the time of tender if the Customer wrongfully fails to take delivery of the goods

Or from the time when the same leave the premises of the Company (or the premises where the same stored for or by the Company or to the Customer's order). Where the goods are delivered by the carrier any claim for loss or damage in transit must be made by the Customer against the carrier in accordance with any terms and conditions of business of the carrier.

- 7.2 Title in the goods or any part thereof shall only pass to the Customer when payment in full for all goods whatsoever supplied and all services rendered at any time by the Company has been made.
- 7.3 The Customer shall permit so far as it is able and shall use its best endeavours to assist any officer, employee, representative or agent of the Company to enter onto any premises where the goods may from time to time be situated and to repossess the goods at any time prior to title passing to the Customer and until such time as title passes the Customer shall hold the goods as the Company's fiduciary agent and bailee.

8 Insolvency

- 8.1 If any distress or execution shall be levied on the Customer's property or assets or any part thereof, or if the Customer shall make or offer to make any arrangement or composition with its creditors generally or if the customer:-
- Being an individual, commits any act of bankruptcy or if any Petition or Receiving Order in Bankruptcy shall be presented or made against him; or
 - Being a partnership, if the said partnership is dissolved for whatever reason or if any partner commits any act of bankruptcy or if any Petition or Receiving Order in Bankruptcy shall be presented or made against any partner or the partnership; or
 - Being a limited company, if proceedings are commenced for the liquidation of the Customers or if a meeting of creditors is called pursuant to section 588 of the Companies Act 1985 or if a resolution is passed for the voluntary winding up of the Customer (other than a member voluntary winding up for the purpose of amalgamation or reconstruction only) or the appointment of an Administrator or if a Receiver is appointed of all or any of the assets of the Customer, or the Customer ceases, or threatens to cease to carry on business then the Company shall have the right forthwith to determine all subsisting contracts whether remaining to be performed in whole or in part by serving written notice of such determination on the Customer, and all monies due to the Company shall become immediately due and payable.

9 Warranty

- 9.1 Subject as expressly provided in these Conditions and except where goods are sold or services provided to person dealing as consumer within the meaning of the Unfair Contract Terms Act 1977 all warranties, conditions or other terms implied by statute or common law are excluded to the fullest extent permissible by law.
- 9.2 The Customer shall be responsible for ensuring that all Statutory Governmental Regulations, Local Authority Regulations, operating instructions and safety precautions are complied with in relation to goods supplied by the Company.
- 9.3 Equipment and computer products which require installation and warranty/support services thereafter are subject to additional terms and conditions, a copy of which is available upon request from the Company.

10 Restriction of Liability

- 10.1 The Company shall not in any event be liable for indirect or consequential loss or damage, being loss or damage which does not directly and naturally flow from the supply of goods or materials, including without limitation loss of profit, of use, overhead costs, collateral damage or of contract arising out of the supply or failure of supply of goods or services by the Company (other than liability for death or personal injury resulting from negligence of the Company) and whether arising from breach of contract, negligence or for any other liability however arising, whether by statute or otherwise.
- 10.2 In all other cases (being cases of direct and natural losses or damage) it is specifically provided and agreed that compensation and damages payable under any claim or claims arising out of the contract between the parties under whatsoever pretext shall not under any circumstances amount in aggregate to more than the contract price or the goods and/or services forming the subject of claim or claims.
- 10.3 No liability for such direct losses shall attach to the Company unless details of such losses are notified to the Company in writing within 7 days of the date of delivery of the goods, or the date of the event giving rise to such loss if it is not apparent upon the date of delivery. In cases of alleged non-delivery, shortage or breakage, claims must be notified to the Company within 3 days of dispatch of the goods by the Company.
- 10.4 For the avoidance of doubt, nothing in this agreement shall confer on any third party any benefit or the right to enforce any term of this agreement.

11 Applicable Law

These Terms and Conditions and the rights and obligations of the parties to the contract shall be governed, interpreted and construed solely in accordance with the Laws of England.
